### TITLE 7—AGRICULTURE

#### Chapter XI—Production and Marketing Administration (War Food Distribution Orders)

[WFO 44, Amdt. 18]

#### PART 1465—FISH AND SHELLFISH

##### RESTRICTIONS ON 1946 PACK OF CANNED FISH

War Food Order No. 44, as amended (10 F.R. 10071, 10419, 10963, 11341, 12897, 14417, 14861), is further amended to read as follows:

§ 1465.20 *Restrictions relative to the 1946 pack of canned fish—(a) Definitions.* (1) "Canner" means any person who is the first owner of canned fish.

(2) "Can" means (i) to pack fish in the Continental United States or in the Territory of Alaska for commercial purposes in hermetically sealed or glass containers, and (ii) to sterilize the fish packed in such containers by the use of heat.

(3) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether incorporated or not.

(4) "1946 pack" means the total net weight of canned fish of each class designated in (b) (1) hereof, for the period indicated therein.

(5) "Assistant Administrator" means the Assistant Administrator for Regulatory and Marketing Service matters, Production and Marketing Administration of the United States Department of Agriculture.

(6) "Governmental agency" means the United States Department of Agriculture (including, but not being limited to, any corporate agency thereof), and any other agency or instrumentality of the United States designated by the Assistant Administrator.

(7) "1946 packing season" means the period (i) beginning with April 1, 1946, or any subsequent date on which a canner commences to produce any canned fish of the 1946 pack, and (ii) ending with March 31, 1947, or the date on which such canner ceases to produce any canned fish of the 1946 pack, whichever date is the earlier.

(b) *Restrictions on canners.* (1) No canner may sell or deliver any canned fish of his 1946 pack of the classes numbered 1 to 4, inclusive, and 6 to 9, inclusive (designated in (b) (1) hereof), except as permitted by the provisions of this order. Unless otherwise specified in the respective class designation, the fish subject to the provisions of this order are, by classes, designated as follows:

*Class 1.* Salmon: Alaska red or sockeye (*Oncorhynchus nerka*) packed in the Territory of Alaska. (For the period April 1, 1946, to March 31, 1947, inclusive.)

*Class 2.* Salmon: Silver, silverside, medium red, or coho (*Oncorhynchus kisutch*). (For the period April 1, 1946, to March 31, 1947, inclusive.)

established as each such canner's quotas of the 1946 pack of such classes for sale or delivery to governmental agencies.

(3) Forty-five percent, by net weight, of each canner's 1946 pack of class numbered 6 (designated in (b) (1) hereof) is hereby established as each such canner's respective quota of the 1946 pack of such class for sale or delivery to governmental agencies.

(4) Forty-five percent, by net weight, of each canner's 1946 pack of class numbered 7 (designated in (b) (1) hereof) is hereby established as each such canner's respective quota of the 1946 pack of such class for sale or delivery to governmental agencies.

(5) Forty-five percent, by net weight, of each canner's 1946 pack of class numbered 8 (designated in (b) (1) hereof) is hereby established as each such canner's respective quota of the 1946 pack of such class for sale or delivery to governmental agencies.

(6) Forty-five percent, by net weight of each canner's 1946 pack of class numbered 9 (designated in (b) (1) hereof) is hereby established as each such canner's quota for the 1946 pack of such class for sale or delivery to governmental agencies.

(7) No canner may sell or deliver, in the aggregate, to governmental agencies, a total quantity, by net weight, of his 1946 pack of the fish of any class numbered 1 to 9, inclusive (designated in (b) (1) hereof) in excess of a quantity of canned fish equal to the applicable quota percentage of his 1946 pack of such class plus 30,000 pounds, by net weight, of the canned fish of the 1946 pack of such class.

(8) For each 33 pounds of canned fish of the 1946 pack of classes numbered 1 to 4, inclusive (designated in (b) (1) hereof), which a canner has sold or delivered to any governmental agency or with respect to which he has submitted to any governmental agency a written tender of delivery of such canned fish in compliance with a written contract between such canner and such governmental agency, such canner may sell or deliver 67 pounds of canned fish of the same class to persons other than a governmental agency; *Provided*, That, prior to the time of each such written tender, such canner has obtained, with respect to the canned fish included in such written tender, an inspection certificate, issued by an inspection service approved by the governmental agency to which the tender has been made, indicating that such canned fish meets all the specifications set forth in such canner's aforesaid written contract for such canned fish.

(9) For each 45 pounds of canned fish of the 1946 pack of class numbered 6 (designated in (b) (1) hereof) which a canner has sold or delivered to any governmental agency or with respect to which he has submitted to any governmental agency a written tender of delivery of such canned fish in compliance with a written contract between such canner and such governmental agency, such canner may sell or deliver 55 pounds of canned fish of the same class to persons other than a governmental agency; *Provided*, That, prior to the time of each such written tender, such canner has obtained, with respect to the canned fish included in such written tender, an inspection certificate, issued by an inspection service approved by the governmental agency to which the tender has been made, indicating that such canned fish meets all the specifications set forth in such canner's aforesaid written contract for such canned fish.

(10) For each 45 pounds of canned fish of the 1946 pack of class numbered 7 (designated in (b) (1) hereof) which a canner has sold or delivered to any governmental agency or with respect to which he has submitted to any governmental agency a written tender of delivery of such canned fish in compliance with a written contract between such canner and such governmental agency,

such canner may sell or deliver 55 pounds of canned fish of the same class to persons other than a governmental agency; *Provided*, That, prior to the time of each such written tender, such canner has obtained, with respect to the canned fish included in such written tender, an inspection certificate, issued by an inspection service approved by the governmental agency to which the tender has been made, indicating that such canned fish meets all the specifications set forth in such canner's aforesaid written contract for such canned fish.

(11) For each 45 pounds of canned fish of the 1946 pack of class numbered 8 (designated in (b) (1) hereof) which a canner has sold or delivered to any governmental agency or with respect to which he has submitted to any governmental agency a written tender of delivery of such canned fish in compliance with a written contract between such canner and such governmental agency, such canner may sell or deliver 55 pounds of canned fish of the same class to persons other than a governmental agency; *Provided*, That, prior to the time of each such written tender, such canner has obtained, with respect to the canned fish included in such written tender, an inspection certificate, issued by an inspection service approved by the governmental agency to which the tender has been made, indicating that such canned fish meets all the specifications set forth in such canner's aforesaid written contract for such canned fish.

(12) For each 45 pounds of canned fish of the 1946 pack of class numbered 9 (designated in (b) (1) hereof) which a canner has sold or delivered to any governmental agency or with respect to which he has submitted to any governmental agency a written tender of delivery of such canned fish in compliance with a written contract between such canner and such governmental agency, such canner may sell or deliver 55 pounds of canned fish of the same class to persons other than a governmental agency; *Provided*, That, prior to the time of each such written tender, such canner has obtained, with respect to the canned fish included in such written tender, an inspection certificate, issued by an inspection service approved by the governmental agency to which the tender has been made, indicating that such canned fish meets all the specifications set forth in such canner's aforesaid written contract for such canned fish.

(13) If any canner's 1946 pack of canned fish of any class numbered 1 to 9, inclusive (designated in (b) (1) hereof) is less than 12,000 pounds, such canner may consider such canned fish as a part of his 1946 pack of the canned fish of any other class numbered 1 to 9, inclusive (designated in (b) (1) hereof).

(14) If any canner sells or delivers, to any person other than a governmental agency and for civilian use in the Philippine Islands, any canned fish of his 1946 pack of the class numbered 6 (designated in (b) (1) hereof), such canner may consider such canned fish as having been sold or delivered to a governmental agency pursuant to the provisions hereof.

(15) Unless otherwise authorized by the Assistant Administrator, no canner may use, in the production of his 1946 pack of class numbered 10 (designated in (b) (1) hereof) a quantity of vegetable oil in excess of the following applicable quantity per case of 48 cans of the size stated:

**TUNA—YELLOWTAIL—BONITO**

- (a) *Solid pack*  
No. ½ tuna can (307 x 113), 4.1 pounds of oil per case.  
No. 1 tuna can (401 x 205.5), 5.6 pounds of oil per case.  
Four-pound tuna can (603 x 408), 7.5 pounds of oil per case.  
(b) *Flakes, shredded, or grated*  
No. ½ tuna can (307 x 113), 3.00 pounds of oil per case.  
No. 1 tuna can (401 x 205.5), 4.25 pounds of oil per case.  
Four-pound tuna can (603 x 408), 5.50 pounds of oil per case.

(16) The Assistant Administrator may issue specifications at any time relative to the packing of the canned fish, the containers, container treatment, can marking, labeling, boxing, and strapping in connection therewith, or he may authorize any governmental agency to issue such specifications. Each person subject to the provisions of this order shall comply with such specifications, issued by the Assistant Administrator or the governmental agency authorized by the Assistant Administrator to issue such specifications, applicable to the canned fish processed by such person.

(c) *Inspection and grading.* All canned fish subject to the provisions of this order shall be subject to inspection and grading at any time by the Assistant Administrator or any governmental agency authorized by the Assistant Administrator to make such inspection and grading.

(d) *Contracts.* The restrictions of this order shall be observed without regard to contracts heretofore or hereafter entered into, or any rights accrued or payments made thereunder. This order shall not, however, be construed as reducing the amount of canned fish of the 1946 pack which any person is required to offer or deliver pursuant to contracts heretofore or hereafter entered into with any governmental agency.

(e) *Records and reports.* (1) The Assistant Administrator shall be entitled to obtain such information from, and require such reports and the keeping of such records by, any person, as may be necessary or appropriate, in the Assistant Administrator's discretion, to the enforcement or administration of the provision of this order, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(2) Every person subject to this order shall, for at least two years (or for such period of time as the Assistant Administrator may designate), maintain an accurate record of his transactions in canned fish.

(3) *Weekly reports.* Each canner who produces any canned fish of the 1946 pack shall report on Form FDO-44-1 (Revised April 2, 1946), entitled "Canned Fish: Pack Report," the total quantity

of canned fish of the 1946 pack produced by such canner from each class of fish (designated in (b) (1) hereof) during each calendar week of such canner's 1946 packing season. Each such report shall be submitted for each calendar week during the respective canner's 1946 packing season regardless of whether or not such canner produced any canned fish of the 1946 pack during a particular calendar week. Each report for a calendar week or a part thereof subsequent to April 1, 1946, shall be submitted as aforesaid within four days after the last day of each such calendar week or part thereof.

(4) *Seasonal reports.* In addition to the weekly reports required to be submitted pursuant to (e) (3) hereof, each canner, as aforesaid, shall report on Form FDO-44-1 (Revised April 2, 1946) the total quantity of canned fish of his 1946 pack of each class of fish (designated in (b) (1) hereof) produced by such canner during his 1946 packing season and shall submit such report within 15 days after the last day of such canner's 1946 packing season.

(5) *Completion of reports.* The respective reports submitted pursuant to (e) (3) and (4) hereof shall be completed in accordance with the instructions contained on the aforesaid Form FDO-44-1 (Revised April 2, 1946).

(f) *Audits and inspection.* The Assistant Administrator shall be entitled to make such audits or inspections of the books, records and other writings, premises, or stocks of canned fish of any person, and to make such investigations, as may be necessary or appropriate, in the Assistant Administrator's discretion, to the enforcement or administration of the provisions of this order.

(g) *Applicability of order.* Any person doing business in one or more of the 48 States, the District of Columbia, or the Territory of Alaska, is subject to the provisions hereof, but the provisions hereof shall not apply to any person doing business in any other territory or possession of the United States with respect to such business.

(h) *Violations.* Any person who violates any provision of this order may, in accordance with the applicable procedure, be prohibited from receiving, making any deliveries of, or using canned fish. In addition, any person who willfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Further, civil action may be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

(i) *Delegation of authority.* The administration of this order and the powers vested in the Secretary of Agriculture, insofar as such powers relate to the administration of this order, are hereby delegated to the Assistant Administrator. The Assistant Administrator is authorized to redelegate to any employee of the United States Department of Agriculture any or all of the authority vested in him by this order; and one such employee

shall be designated by the Assistant Administrator to serve as order administrator, and such other employees as may be necessary shall be designated to serve as deputy order administrators.

(j) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional or unreasonable hardship on him may apply in writing for relief to the Assistant Administrator, setting forth in such petition all pertinent facts and the nature of the relief sought. The Assistant Administrator may take any action with reference to such petition as he deems appropriate, which action shall be final.

(k) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise provided herein or in instructions issued by the Assistant Administrator, be addressed to the Assistant Administrator for Regulatory and Marketing Service Work, Production and Marketing Administration, Department of Agriculture, Washington 25, D. C. Ref. WFO-44.

(l) *Effective date.* The provisions of this order shall become effective at 12:01 a. m., e. s. t., April 1, 1946. With respect to violations, rights accrued, liabilities incurred, or appeals taken under War Food Order No. 44, as amended, prior to the effective time of the provisions hereof, the provisions of said War Food Order No. 44, as amended, in effect prior to the effective time hereof shall be deemed to continue in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

NOTE: All record-keeping and reporting requirements of this order have been approved by, and subsequent reporting and record-keeping requirements will be subject to the approval of, Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(E.O. 9280, 7 F.R. 10179; E.O. 9577, 10 F.R. 8087)

Issued this 4th day of April 1946.

[SEAL] CLINTON P. ANDERSON,  
Secretary of Agriculture.

## TITLE 32—NATIONAL DEFENSE

## Chapter IX—Civilian Production Administration

**AUTHORITY:** Regulations in this chapter unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827 and Pub. Law 270, 79th Cong.: E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; E.O. 9599, 10 F.R. 10155; E.O. 9638, 10 F.R. 12591; CPA Reg. 1, Nov. 5, 1945, 10 F.R. 13714.

## PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 32, as Amended Apr. 5, 1946]

## INVENTORIES

## (a) What this regulation does.

*General Restrictions*

- (b) Restriction on delivery.
- (c) Restrictions on receipts.
- (d) Restriction on ordering more than needed.
- (e) Adjusting outstanding orders when requirements change.
- (f) Restriction on processing.

*Exceptions*

- (g) In general.
- (h) Receipts permitted after contract cancellations or cut-backs.

*Miscellaneous Provisions*

- (i) Previous inventory authorizations.
- (j) Separate inventories.
- (k) Redistribution of excess inventories.
- (l) Violations.
- (m) Revisions of tables.
- (n) Appeals, letters and questions.

**§ 944.53 Priorities Regulation 32—(a) What this regulation does.** This regulation contains the inventory rules formerly in § 944.14 of Priorities Regulation 1 and in CMP Regulation 2. Its purpose is to prevent excessive inventories by restricting ordering, deliveries, receipts and processing of materials in short supply. All kinds of materials are covered including raw or semi-fabricated materials, commodities, equipment, accessories, parts, assemblies or products of any kind, whether or not acquired with priorities assistance.

The general rule on receipts is in paragraph (c) (1), and this is controlling unless a more specific limitation or exception is indicated in Table 1 or 2 or a direction to this regulation, or unless Table 3 (formerly Order M-161) exempts the material entirely. Other exceptions to the inventory limitations are stated in paragraphs (g) and (h) and in directions to this regulation.

*General Restrictions*

(b) *Restriction on delivery.* No person may deliver any material if he knows or has reason to believe that acceptance of the delivery would be in violation of this regulation.

**NOTE:** For rule on making or delivering material earlier than required by customers, see Interpretation 3.

(c) *Restrictions on receipts—(1) General rule.* A person may not accept delivery of any material if his inventory of that material is, or will be, more than

a practicable minimum working inventory reasonably necessary to meet his own deliveries or to supply his services on the basis of his current or scheduled method and rate of operation.

**NOTE:** For rule on when material is considered to be in inventory, see Interpretation 4; for rule as to seasonal industries, see Interpretation 1.

(2) *Special rules in Tables 1 and 2.* If Table 1 at the end of this regulation shows a special inventory limit on a particular material or product (either specifically or by reference to another CPA order or regulation), that limitation governs and the restrictions of paragraph (c) (1) above may be disregarded unless the applicable order or regulation (or a note in Table 1) also states that a practicable minimum working inventory may not be exceeded. The same is true with respect to particular classes of persons shown on Table 2. Where a specific period of time is shown on Table 1 or 2, no person affected may accept delivery of any material specified if his inventory of it is, or will be, more than he needs during the immediate period specified on the basis of his current or scheduled method and rate of operation. Even if an order or regulation is not listed on Table 1 or 2, any specific inventory limits imposed by it must be complied with. If an order or regulation listed on Table 1 or 2 is revoked or a listing removed from the tables all provisions of this regulation, including paragraph (c) (1), are automatically applicable.

(3) *Early delivery of steel, iron products, copper and copper base alloys.* Early delivery, up to 15 days before the requested delivery month, may be accepted from a producer of steel, iron products, copper or copper base alloys (in the forms listed on Table 1), but the producer may not make the early delivery if it would interfere with any rated orders. Other special rules on these materials are explained in Table 1.

(d) *Restriction on ordering more than needed.* (1) A person may not place any order, whether rated or unrated, for delivery of any material on earlier dates or in larger amounts than he would be permitted to receive under this regulation. Orders aggregating more than he is allowed to receive may not be placed with different suppliers even though he intends to cancel one or more of them before delivery. However, this restriction does not apply to materials listed on Table 3 of this regulation nor to purchases by ultimate consumers for personal or household use. The restriction does not forbid the placing of orders for delivery under the conditions explained in Interpretation 11 to Priorities Regulation 1, but such orders may not be scheduled for production as long as this restriction is effective.

(2) This restriction does not require immediate adjustment of orders placed before August 28, 1945. However, in view of its policy to prevent hoarding and speculative buying of materials in short supply, the CPA may direct adjustments or cancellations in individual cases where

orders are in excess of reasonably anticipated needs especially where failure to do so might result in unbalanced distribution and curtail total production.

(3) If the inventory limits applying to any material are made more restrictive, whether by a change in Table 1 or otherwise, any person affected must immediately cancel, reduce or defer any order for the material to the extent that the scheduled delivery would result in an inventory greater than permitted by the new restriction and other applicable provisions of this regulation.

(e) *Adjusting outstanding orders when requirements change.* If because of a change in operations, slowing or stoppage of production, delayed delivery by a supplier, or any other change in requirements, a person who has ordered material for future delivery would, if he accepted delivery on the date specified, exceed the limits prescribed by this regulation, he must promptly adjust his outstanding orders, and, if necessary, postpone or cancel them. Paragraph (h) below describes what further deliveries may be accepted.

(f) *Restriction on processing.* No person may process, fabricate, alloy or otherwise alter the shape or form of any material if his inventory of the material in its processed, fabricated, alloyed or otherwise altered shape or form is, or will be, more than a practicable minimum working inventory. However, this does not restrict a person from altering the form of surplus materials by scrapping or reprocessing them, unless a CPA order specifically says otherwise. The CPA may issue directions to Priorities Regulation 32 or other orders that are more restrictive on processing than the general limitations of this paragraph. In such case, these more restrictive directions or orders control instead of the general restrictions of the paragraph.

*Exceptions*

(g) *In general.* This paragraph, paragraph (h) below, and certain directions to this regulation state general exceptions to the restrictions on acceptance of delivery described in paragraph (c) above, and to all other inventory restrictions on delivery and acceptance of delivery in CPA orders and regulations unless they contain specific provisions to the contrary. None of these or any other exceptions to CPA inventory restrictions on receipts permit a supplier to disregard any applicable CPA order or regulation which restricts production or delivery.

(1) *Exemption of Table 3 materials.* Materials listed on Table 3 at the end of this regulation may be delivered and accepted without regard to CPA inventory restrictions.

(2) *Materials bought under PR-13.* Priorities Regulation 13 provides a limited exemption from inventory restrictions in the case of items bought on special sales.

(3) *Imported materials.* A person may import any material without regard to CPA inventory restrictions, but if his

inventory of it thereby becomes in excess of the amount permitted by this regulation, he may not receive further deliveries of it from domestic sources until his inventory is reduced to permitted levels. The inventory restrictions of this regulation do apply to any deliveries of the imported material he makes, and to the amount of it that any person accepting delivery from him may receive.

(4) *Advance stockpiling for civilian production.* A person may receive in anticipation of starting or resuming civilian production the minimum amount of material he would need during the first 30 days of such production, provided no priorities assistance is used to get the material. Records of such receipts and the basis on which they were computed must be preserved as required by § 944.15 of Priorities Regulation 1. This 30-day amount is a ceiling as far as advance stockpiling is concerned, and may not be considered as a "bonus" to be added to the amount of any material which a producer expects to have available for making his civilian product. Changes in this 30-day amount may be indicated for a particular material by a note in Table 1.

(5) *Minimum sale quantities.* Minimum sale quantities and production runs may be accepted to the extent permitted by Interpretation 2 to this Regulation. However, where Column 3 of Table 1 shows a specific amount of a particular material, that is considered to be the minimum sale quantity of it. Thus, if a person would be permitted under paragraph (c) to accept less than the amount shown, he may accept delivery of the full amount. In any event, after receiving a minimum sale quantity of any material, a person may not accept delivery of any additional quantities until his inventory of it is within applicable limits.

(6) *Small inventory exemption for particular materials.* If a note in Table 1 or 2 shows a specific amount of a particular material as a small inventory exemption, a person may accept delivery of any quantities of it as long as his total inventory of it after acceptance is no more than the specified amount.

(h) *Receipts permitted after adjustment of orders.* Where a person has promptly adjusted his outstanding orders with his supplier as required by paragraph (e) and the supplier is not otherwise prohibited from producing or delivering any material involved, delivery of it may be made and accepted and the inventory restrictions of paragraph (c) exceeded to the following extent only:

(1) Delivery may be made and accepted if the supplier has shipped the material or loaded it for shipment before the receipt of the instruction to adjust; or

(2) Delivery may be made and accepted of any special item which the supplier actually has in stock or in production or special components or special materials which he has acquired for the purpose of filling that contract. A special item, as used above, means one that the supplier does not usually make, stock, or sell, and which cannot readily be disposed of to others; or

(3) Even if the material is not a special item, delivery may be made by and accepted from a producer if it has already been produced or is in production before receipt of the instruction to adjust, and it cannot be used to fill other orders on the producer's books.

**NOTE:** For special rules on continuing receipts of special items after contract cut backs, see Direction 3 to this regulation; and as to transfers of idle materials after cancellations or cut backs, see Direction 1. For effect of reduction in consumption rate on permitted inventories, see Interpretation 5.

#### Miscellaneous Provisions

(i) *Previous inventory authorizations.* Any specific authorizations, exceptions, or grants of appeals issued under § 944.14 of Priorities Regulation 1 or CMP Regulation 2 remain in effect according to their terms unless individually modified or revoked.

(j) *Separate inventories.* (1) In figuring his inventory, a person must include all material in his possession and all material held for his account by another person, but not material held by him for the account of another person.

(2) In the case of a person who on August 28, 1945, has more than one operating unit and keeps separate inventory records for them, this regulation applies to each such operating unit or division independently. A person may not make any further separation or consolidation of such operating units without special written approval of the Civilian Production Administration, unless it is purely incidental to a separation or consolidation which is made primarily for other than inventory purposes.

(k) *Redistribution of excess inventories.* Excess inventories of materials and products, including inventories of materials which are in such form as to be unusable by the holder, are subject to redistribution to other persons by voluntary action pursuant to Priorities Regulation 13, or if necessary for national defense, through requisitioning by the Civilian Production Administration.

(l) *Violations.* Any person who willfully violates any provision of this regulation, or who, in connection with this regulation, willfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(m) *Revisions of tables.* Tables 1, 2 and 3, attached to this regulation will be revised from time to time. As materials and products become in more ample sup-

**NOTE:** Table amended Apr. 5, 1946.

ply, it is expected that they will be listed on Table 3. In special cases, particular materials or products may also be removed from Table 3 or added to Table 1. It is, therefore, important to be familiar with the latest revision of the tables.

(n) *Appeals, letters and questions.* Any appeal or other question regarding any provision of this regulation should be sent by letter in duplicate to the Inventory Control Division, Civilian Production Administration, Washington 25, D. C., Ref.: PR 32, unless Table 1 or 2 attached to this regulation indicates otherwise with respect to particular materials or classes of persons.

TABLE 1—MATERIALS AND PRODUCTS SUBJECT TO SPECIFIC INVENTORY PROVISIONS

**Explanation.** Materials or products listed in Column 1 are subject to the specific inventory provisions shown, as explained in paragraph (c) (2) of the regulation, except to the extent that different rules may apply as to certain classes of persons under Table 2.

Column 2 shows either the CPA order or regulation which controls inventories of the material, or if no order is specified, there is shown a period of time representing the maximum inventory permitted as explained in paragraph (c) (2). An asterisk (\*) indicates that the practicable minimum working inventory limit of paragraph (c) (1) also applies, that is, if it would be less than the specific limit indicated.

If Column 2 shows a specific period of time (e. g., 30 days, 60 days, etc.) for a particular material or product, this restriction applies only to "users" of that material or product, i. e., persons, including Government operated consuming establishments, who use the material or product for production, operating supplies, maintenance and repair, or for construction whether for own account or for the account of another. In addition, the restriction applies only within the 48 States and the District of Columbia. In the case of persons who are not "users", such as persons buying for resale, paragraph (c) (1) applies instead of Column 2.

A figure in Column 3 shows the minimum sale quantity, that is, the amount of the particular material which a person may receive under the conditions stated in paragraph (g) (5), even if it is more than allowed under Column 2. If no figure is shown, the rule in Interpretation 2 must be followed.

Column 4 tells the Division or Office in the Civilian Production Administration to which should be sent any appeals or questions regarding the limitations described. However, if the applicable order says appeals are to be filed somewhere else, such as the nearest CPA field office, that provision controls.

Column 5 (Remarks) gives explanations, exemptions or other special rules applicable to the particular material or limitation.

The Column 2 restrictions do not apply to green lumber which must be seasoned by the user before it is usable for the purpose for which it was purchased, but such receipts are subject to the restrictions of paragraph (c) (1) of the regulation. However, when such lumber is suitably seasoned for use it must be colored in determining whether or not the person is eligible to accept any further deliveries of lumber in usable condition under the limitations of this Table 1.

TABLE 3—EXEMPTED MATERIALS AND PRODUCTS

*Explanation.* The following materials and products are exempt from the inventory restrictions on receipts of this regulation and of all other CPA orders or regulations unless they specifically state otherwise.

Abrasive products—made from manufactured or natural abrasives, including all items under CMP code 720  
 Aluminum in all forms  
 Asbestos, unmanufactured, all grades and types  
 Asbestos friction materials  
 Asbestos Tape .010-.025 thickness  
 Asbestos textiles  
 Batteries, dry cell  
 Bearings—ball and roller, including all items under CMP code 155  
 Bending machines for pipe, plate, roll, or structural shapes, including all items under CMP code 356  
 Bentonite  
 Capital equipment (other than that elsewhere listed on this table and other than wood poles, cross arms, domestic watt hour meters, power and distribution transformers, circuit breakers and switch gear)  
 Chains, except stud link anchor, cast steel, power transmission, but including all items under CMP code 712  
 China clay (English)  
 Cork, raw—corkwood, milling cork, grinding cork  
 Cotton: Baled, raw cotton  
 Cranes and hoists, including all items under CMP Codes 146, 303, 308 and 312.  
 Domestic andalusite  
 Domestic dumortierite  
 Fibrous glass products  
 Files and Rasps, including all items under CMP code 644  
 Forging Machines, including all items under CMP code 354  
 Foundry Machinery, Equipment and Supplies, including all items under CMP code 363  
 Furfural  
 Furnaces, metal melting, including all items under CMP code 422  
 Gages and Precision Measuring Tools, including all items under CMP code 658  
 Heat Treating Equipment, metal, including all items under CMP code 364  
 Ilmenite  
 Jute fiber and products  
 Jigs, dies and fixtures  
 Jute fiber and jute products except burlap  
 Kyanite (Indian)  
 Lamps, incandescent  
 Machine Tools, non-portable power driven, including all items under CMP code 350  
 Machine Tool and Metal Working Machine Attachments and Accessories, including all items under CMP code 361  
 Magnesium in all forms.  
 Mechanics Hand Service Tools, including all items under CMP code 647  
 Metal Cutting Tools, including all items under CMP code 362  
 Metal Working Machines and Tools, portable, power-driven, including all items under CMP code 365  
 Metal Working Presses, hydraulic and mechanical, including all items under CMP code 365  
 Mineral aggregates:  
 Sand  
 Gravel  
 Crushed stone.  
 Slag  
 Packings, Gaskets and Oil Seals  
 Pipe fittings (not bell, spigot, compression, flared or Parker type) including all items under CMP Codes 572 and 573 except grey cast iron and malleable iron fittings and unions.  
 Piping accessories: industrial, marine, under CMP Code 597.  
 Potter's flint  
 Pulpwood

Rolling Mill Stands and Attached Equipment, including all items under CMP code 357  
 Salt (sodium chloride) in bulk  
 Sediment separators  
 Shears, Punches and Nibblers, power-driven, including all items under CMP code 358  
 Sodium sulfate (salt cake)  
 Sodium sulfite  
 Stoneware clay  
 Sulphur  
 Valve handwheels  
 Valves, goggle  
 Valves, piping system (not airbrake equipment, aircraft, instrument, refrigeration, regulating, or plumbing fixture fittings and trim), including all items under CMP Codes 574 and 575 except brass.  
 Vermiculite  
 Waste paper  
 Wire Drawing Machinery, including all items under CMP code 359  
 Wood pulp  
 Wool: Raw wool

## INTERPRETATION 1

## INVENTORIES IN SEASONAL INDUSTRIES

Paragraph (c) (1) of Priorities Regulation 32 prohibits any person from accepting a delivery which will give him "more than a practicable minimum working inventory reasonably necessary to meet his own deliveries on the basis of his current or scheduled method and rate of operation." This does not prevent a person engaged in a seasonal industry who normally stocks up inventory in advance of the season from accepting delivery of his requirements of the inventory in question, provided (a) that he is not guilty of hoarding, and (b) that the deliveries accepted are no greater and no further in advance than those which he would normally accept in the ordinary course of his business to meet reasonably anticipated requirements. (Issued Aug. 28, 1945.)

## INTERPRETATION 2

## MINIMUM SALE QUANTITIES AND PRODUCTION RUNS

(a) *Applicable provisions of the regulations.* Priorities Regulation 32 forbids the making or acceptance of a delivery which will give the customer more than the "practicable minimum working inventory reasonably necessary" for him to make his own deliveries. A similar provision in paragraph (c) (2) of Priorities Regulation No. 3 says that a customer who is applying a rating for which no specific quantities have been authorized may use it only to get the "minimum amount needed."

(b) *Factors to be considered in determining how much can be ordered and delivered.* In determining a customer's minimum inventory "reasonably necessary" under Priorities Regulation 32 or his "minimum amount needed" under Priorities Regulation No. 3, it is proper in some cases to consider not only the immediate needs of the customer's plant but also whether the amount which he orders will be a minimum production run for his supplier. The customer may order and receive (and the supplier may deliver) the customer's requirements for a longer period in advance than he actually needs at the time of delivery if, but only if, it is not practicable for him to get the item from any supplier in the smaller quantities which he presently needs. The supplier may reject his customer's order if it is less than the minimum which he regularly sells or less than his minimum production run of a product which is mass produced under the conditions explained in Interpretation 3 of Priorities Regulation 1.

(c) *Relief in exceptional cases.* If the conditions stated in paragraph (b) above cannot be satisfied but the customer wants to order or accept delivery of more than his actual needs at the time of delivery, he should apply to the Civilian Production Ad-

ministration for permission, stating the facts and why it is not practicable to satisfy the condition of paragraph (b).

(d) *Special provisions for certain materials.* Where a specific minimum sale quantity is shown in Column 3 of Table 1 of Priorities Regulation 32 with respect to any material or product, that quantity controls instead of the rule in this interpretation.

(e) *Specific limits on ratings may not be exceeded.* This interpretation does not apply to the use of a rating where a specific quantity is stated in the instrument assigning the rating. If a person is assigned a rating for a specific amount of material, he may not use it to get more. If he finds that he can only get the material in larger quantities, he should apply for a modification of the rating.

(f) *No effect on contractual rights.* The times and amounts in which deliveries are to be made are to be determined by agreement between the supplier and the customer. Nothing in this interpretation relieves a supplier from fulfilling a contract to make deliveries at specified times in specified amounts. For example, if a customer has agreed to buy and a supplier has agreed to furnish 100 units a month for six months, this interpretation does not obligate the buyer to accept 600 units delivered during the first month, although it permits him to do so under the conditions described in paragraph (b). (Issued Oct. 1, 1945.)

## INTERPRETATION 3

## MAKING OR DELIVERING MATERIAL EARLIER THAN REQUIRED BY CUSTOMERS

(a) Paragraph (b) of Priorities Regulation 32 prohibits a person from knowingly making a delivery which will give his customer more than the latter is permitted to receive under the regulation. Paragraph (f) of that regulation prohibits a person from processing or fabricating material if his inventory of the material in its processed or fabricated form will be more than a practicable minimum working inventory. These two restrictions should be borne in mind by any supplier who wants to make or deliver any material to his customer earlier or in greater quantities than required by the customer.

(b) For example: A supplier has accepted his customer's order of a product to be delivered at the rate of 100 a month for six months. The supplier would like to ship 200 a month for three months, or perhaps the entire 600 in the first month. Since the customer's requirements of 100 a month are presumably all he could accept within the inventory limitations of paragraph (c) of the regulation, the requirement that the supplier may not knowingly ship more than this would prevent him from delivering earlier than required by his customer, unless he received notice from his customer that the receipt of the larger amount would not cause him to have an excess inventory.

(c) Thus, before delivering a material or product substantially earlier or in greater quantities than is called for by his customer's order, a supplier is required to satisfy himself that the receipt by the customer of the changed quantities will be within the permissible inventory limitations applicable to the customer. The supplier may rely on any statement or notice to this effect from his customer, unless he knows or has reason to know that it is false.

(d) Similarly, assuming his customer would not be permitted to receive the larger quantities, the supplier should take this into account in his plans for processing the material or product so that he himself will not have an inventory greater than permitted by paragraph (f) of the regulation.

(e) This interpretation, of course, does not change the rule on delivery or acceptance of minimum sale quantities or production runs to the extent described in Interpretation 2

to this regulation, nor does it prevent earlier delivery of iron products, steel, copper and copper base alloys under the conditions described in paragraph (c) (3) of Priorities Regulation 32. Also, if any CPA order or regulation permits increased deliveries to the extent necessary to avoid shipping partly filled containers (such as paragraph (y) (4) of Order M-300), the rule in this interpretation does not prevent such deliveries. (Issued Oct. 1, 1945.)

#### INTERPRETATION 4

##### INVENTORY MATERIAL

(a) Paragraph (c) of Priorities Regulation 32 prohibits a person from accepting delivery of material if his inventory of it is, or will be, greater than the maximum prescribed. For the purpose of this regulation, material is considered to be inventory until it is actually put into process or is actually installed or assembled. Putting into process does not include minor initial operations, such as painting, and does not include any shearing, cutting, trimming or other operation unless such initial operations are part of a continuous fabricating or assembling operation. Nor does it include operations such as inspection, testing and ageing nor segregation or earmarking for a specific job or operation.

(b) For example, if a manufacturer who uses wire or rod cuts a sufficient quantity of it to length at one time to maintain his operations for a considerable period of time, the cut pieces remain as inventory until processed into another form or until assembled or installed.

(c) If a manufacturer purchases and stores steel castings in the form purchased, the steel castings are not put into process when the castings are painted and stored. Consequently, the inventory of castings includes those painted and stored.

(d) If a manufacturer shears steel sheet and stocks in sheared form, such stock is still part of his inventory, if the material does not continue in production. (Issued Aug. 28, 1945)

#### INTERPRETATION 5

##### EFFECT OF REDUCTION IN CONSUMPTION RATE ON PERMITTED INVENTORIES

(a) Paragraph (c) of Priorities Regulation 32 prohibits the acceptance of delivery of material if a person's inventory of it is, or will be, more than the amount permitted by the regulation. If material is acquired within these restrictions, the regulation does not prohibit the mere possession of an inventory if a change in circumstances makes it greater than the amount permitted. For instance, if based upon current rate of production a manufacturer's permitted inventory of one item of steel is 100 tons and he has in inventory 60 tons, he may receive a further delivery of 40 tons. If after receiving the delivery of 40 tons his rate of consumption, because of contract cancellation or the like, is reduced drastically, the mere fact that he has an inventory of 100 tons, although his permitted inventory may be only 10 tons, is not a violation of the regulation. He may not, of course, accept any further deliveries of that item of steel until his inventory has been reduced below 10 tons (except as provided in paragraph (h) of Priorities Regulation 32 and Direction 3 to that regulation, relating to material already shipped, special items, etc.)

(b) Similarly, the regulation does not affect the liability of a customer for material in inventory when the customer cancels his contract. Such liability is controlled by the provisions of the contract between the customer and his supplier and by contract law. (Issued Aug. 28, 1945)

#### PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-328B, Schedule C, as Amended Apr. 3, 1946]

##### SPECIAL PROGRAM FOR COTTON FABRICS FOR CIVILIAN APPAREL ITEMS

§ 3290.120c *Schedule C to Order M-328B*—(a) *Explanation.* This schedule states the special rules in addition to those set forth in Order M-328B for manufacturers of civilian apparel made of cotton fabric to get preference ratings for fabric to make the items listed in this schedule. It also establishes set-asides for certain cotton fabrics for these items and for over-the-counter sale as piece goods.

(b) *Definitions.* (1) "Fabric", unless otherwise designated, means a woven fabric twelve inches or more in width.

(2) "Cotton fabric" means any fabric containing less than 25% wool by weight, but of which the remaining fibers are 50% or more cotton by weight.

(3) "Cotton item" means an item of which more than 50% of the fabric yardage incorporated in it, exclusive of linings, bindings and trimmings, is cotton fabric.

(c) *Requirements for obtaining priorities assistance.* (1) When a fabric is removed from the fabric column for any item, each manufacturer must immediately cancel or unrate any unfilled orders for that fabric which he placed with ratings assigned under this Schedule for that item.

(2) Whenever a fabric is added to a Preference Rating Schedule for any item, an applicant who has filed an application for that item need not file a new application, but may send a letter to the Civilian Production Administration, Textile Division, Washington 25, D. C., requesting authorization to use the new fabric in place of or in addition to fabrics previously applied for. Where the change is only in the sley of the fabric, the authorization to be issued by the Civilian Production Administration will give effect to such change and no letter is required. The letter must specify the item number, the description of the item, the complete description of all of the authorized fabrics which the applicant wishes to use during the quarter and the number of linear yards of each fabric for which priorities assistance is requested. Such letter should be mailed within five days of the issuance date of an amendment incorporating additional fabrics for an item.

(3) [Deleted Apr. 3, 1946.]

(d) *General provisions.* (1) Preference ratings assigned under this schedule may be used only to get the particular cotton fabrics shown in the fabric column of the preference rating schedule to make the cotton items specified.

(2) The fabrics must be incorporated into an item produced for sale by the manufacturer at or below the lower of the following two prices:

(i) The price at which the manufacturer is permitted to sell the item under regulations of the Office of Price Administration; or

(ii) The price specified in the Maximum Price column.

(3) [Deleted Apr. 3, 1946.]

(4) Manufacturers who did not manufacture an item in the base period must produce the item in the size assortments listed opposite each item in the size assortment column. Where 'normal industry practice' appears, the manufacturer should state his proposed sizes in the remarks section of Form CPA-3732. If his application is granted, he must comply with these size assortments.

(5) No person may place any orders bearing CC ratings assigned under Schedule C of M-328B for carded broadcloth of any sley, or carded poplins, sley of 88 and higher, except for incorporation into men's and boys' shirts and shorts (See items No. 4 (a), 4 (b), 6 (a), 6 (b), 32, 33 and 35 on Preference Rating Schedule No. 3). CC rated orders placed before March 6, 1946 are not affected by this provision and remain valid. The provisions of this paragraph do not apply to CC ratings assigned under this schedule for items on Preference Rating Schedule No. 4. Any manufacturer who is prohibited by the provisions of this paragraph from using for any item CC ratings for the fabrics listed, may, however, use CC ratings to get any other fabric permitted for that item on the applicable Preference Rating Schedule in an equivalent yardage.

(e) *Set-asides of cotton fabrics to fill rated or certified orders.* (1) Every producer of a cotton fabric listed in a Fabric Set-aside Table whether he sells it in the grey or finished state or uses it to manufacture civilian items shall set aside during the quarter stated for the purpose shown in Columns IV and V yardages of that fabric equal to at least the percentage shown of the yardage he produced during the preceding quarter or of his estimated production in that quarter, whichever is greater. Any producer who does not deliver the full yardages required during the applicable quarter must deliver in the next quarter a yardage of cotton fabric equal to the undelivered yardage, in addition to the yardage which he is required to deliver in that next quarter.

(2) *Set-asides for civilian apparel.* Only orders accompanied by Form CPA-4381 or Form CPA-4382 may be charged to the set-aside in Column IV of Fabric Set-aside Table No. I or by Form CPA-4413 or Form CPA-4412 to the set-aside in Column IV of Fabric Set-aside Table No. II. No producer need deliver or use to fill these orders more of any fabric than his set-aside for that fabric.

(3) *Set-asides for piece goods for over-the-counter sale.* Only orders accompanied by Form CPA-4380 (for Fabric Set-aside Table No. 1) or Form CPA-4414 (for Fabric Set-aside Table No. II), or the following certificate may be charged to the set-aside in Column (V):

The undersigned certifies subject to the criminal penalties of section 35 (A) of the U. S. Criminal Code that in the --- quarter

of 1946 (insert applicable quarter) he will deliver at retail as over-the-counter piece goods, at not more than 60¢ a yard or his CPA ceiling price, whichever is lower, a yardage of cotton fabric at least equal to the yardage he orders for delivery in that quarter on orders bearing this certificate.

In addition the certificate must contain one of the following sentences:

He will not place orders bearing this certificate calling for delivery in this quarter of 1946 of a total of more than 300 yards of cotton fabric.

or

He will not place orders bearing this certificate calling for delivery in this quarter of 1946 of a total of more cotton fabric than 50% of the yardage he purchased for over-the-counter piece goods sale in the first quarter of 1943 (or 1944)

or (for the second quarter of 1946 only)

He will not place orders bearing this certificate calling for delivery in this quarter of a total of more cotton fabric than the greatest yardage he purchased for over-the-counter piece goods sales in any quarter of 1945.

(4) When a producer has accepted orders accompanied by applicable CPA forms, to the extent of a set-aside for any fabric, he may not require any customer to furnish any of these forms as a condition of filling additional orders for that fabric.

(5) Any person giving a certificate under this schedule, including the certificate set forth in paragraph (e) (3) above and the certificates on applicable CPA forms, must use or dispose of fabric he gets with that certificate in accordance with its terms.

(f) Deliveries by finished goods suppliers to fill rated or certified orders.

(1) Every supplier of finished cotton fabric making the certification on Form CPA-4381 or CPA-4413 must, if possible, deliver during the applicable quarter on

M-328B CC rated orders finished cotton fabric of the type covered by his purchase order in a yardage at least equal to the yardage which he orders for delivery in that quarter on orders accompanied by Form CPA-4381 or CPA-4413. Every supplier of finished cotton fabric making the certification on Form CPA-4380 or Form CPA-4414 must if possible deliver during the applicable quarter to persons who furnish the certificate set forth in paragraph (e) (3) above, or to persons who certify that they will sell only on orders bearing that certificate, finished cotton fabric of the type covered by his purchase order in a yardage at least equal to the yardage which he orders for delivery in that quarter on orders accompanied by Form CPA-4380 or 4414. In calculating the yardage of a particular fabric which he is required to deliver, the supplier of finished fabric may take into consideration actual processing loss in finishing the fabric. Any supplier who does not deliver the full yardage required during the applicable quarter must deliver in the next quarter a yardage of finished cotton fabric equal to the undelivered yardage, in addition to the yardage which he is required to deliver in that next quarter. In the first twenty calendar days of that next quarter he must give preference to the extent of this undelivered yardage for M-328B ratings to orders bearing CC ratings assigned under the program for the previous quarter over orders rated CC for the current quarter's program. For example, from April 1 to April 20, 1946, inclusive, orders bearing valid first quarter 1946 CC ratings assigned under M-328B must be filled from such undelivered first quarter yardage in preference to orders bearing second quarter ratings.

(2) No supplier of finished cotton fabric is required to accept or fill M-328B CC rated or over-the-counter piece goods certified orders for a greater yardage of any type of finished cotton fabric listed on a Fabric Set-aside Table than the yardage he is required to deliver on those orders under paragraph (f) (1) above.

(3) Any supplier of finished fabric who does not use the certification in Form CPA-4381 or CPA-4413, for a fabric must accept M-328B CC rated orders for that fabric in accordance with the provisions of Priorities Regulation No. 1. After a supplier of finished fabrics uses Form CPA-4381 or Form CPA-4413 on any of his purchase orders for a fabric he must not extend to any supplier on orders for that fabric, for delivery in the applicable quarter any CC ratings which he knows or has reason to believe were assigned under Order M-328B.

(g) Restrictions on sale of student nurses' uniforms. Student nurses' uniforms manufactured under Preference Rating Schedules Nos. 3 and 4 (items 42 through 47) may be sold only to hospitals or nurses' training schools; or to persons who furnish substantially the following certification on their purchase orders:

The purchaser represents to the seller and to the Civilian Production Administration that the student nurses' uniforms covered by this order will be sold only to hospitals or nurses' training schools or for ultimate delivery to such institutions.

The standard certification provided for in Priorities Regulation 7 must not be used instead of the above.

Issued this 3d day of April 1946.

PART 903—DELEGATIONS OF AUTHORITY  
[Directive 43]

§ 903.156 *Directive 43*—(a) *Authorizations under Veterans' Housing Program Order 1.* The Secretary of Agriculture or the Director of the Materials and Equipment Branch, Production and Marketing Administration of the Department of Agriculture is authorized to approve or deny applications on Form CPA-4423 for authorization to begin construction under Veterans' Housing Program Order 1 where the construction involved is on a farm. Approvals and denials may be signed in the name of the Department of Agriculture by the authorized official exercising the authority.

(b) *Redelegations.* The authority delegated by this directive may be redelegated to authorized officials of the Department of Agriculture.

(c) *Standards and procedures.* Authority delegated by this directive must be exercised in accordance with any written instructions which may be given by the Director of the Bureau of Reconversion Priorities of the Civilian Production Administration. The Department of Agriculture shall submit all general proc-

essing instructions governing the exercise of this authority to the Civilian Production Administration for its prior approval.

(d) *Reports.* The Department of Agriculture shall make such reports to the Civilian Production Administration on the exercise of the authority granted by this directive as may from time to time be requested by the Civilian Production Administration.

Issued this 4th day of April 1946.

THE OPERATION OF THE PRIORITIES SYSTEM[Priorities Reg. 13, Direction 3, as Amended  
Apr. 5, 1946]

The following amended direction is issued pursuant to Priorities Regulation 13:

Government agencies and state or local governments are entitled to certain priorities in getting surplus property from gov-

ernment disposal agencies under the Surplus Property Act of 1944 and War Assets Administration Regulation 2. Although, under paragraph (d) (2) of Priorities Regulation 13, preference ratings no longer have any effect on disposals of surplus property, disposals under WAA Regulation 2 are still subject to any individual directives which the CPA may issue with respect to delivery of specified surplus property to a named buyer or class of buyers. In general, such directives will be issued only in cases of emergencies, such as those involving floods, fires, explosions, or emergency replacements for essential services. (Direction 16 to Priorities Regulation 13 explains when CPA may issue urgency certificates for surplus government owned equipment.) Disposal agencies must also comply with the restrictions on special sales of the materials and products on Lists A and B of Priorities Regulation 13, and with any applicable directions to that regulation.

Issued this 5th day of April 1946.

PART 944—REGULATIONS APPLICABLE TO THE  
OPERATION OF THE PRIORITIES SYSTEM  
[Priorities Reg. 13, Direction 16]

URGENCY CERTIFICATES FOR SURPLUS  
EQUIPMENT

The following direction is issued pursuant to Priorities Regulation 13:

(a) *What this direction does.* Schedule I of Priorities Regulation 28 lists certain critical products. Increased production of these products is essential to the reconversion program. This direction describes how a person engaged in the production of any of these critical products may apply for a CPA urgency certificate which may help him to acquire surplus equipment from the War Assets Administration. Preference ratings have no effect on sales by War Assets Administration either by way of obliging it to sell, or by way of determining as among several buyers who shall get the material or product. The urgency certificates issued under this direction are not preference ratings, and may not be used to obtain equipment from new production.

(b) *How to apply for an urgency certificate.* Application for a CPA urgency certificate to acquire Government owned surplus equipment under this direction should be made on Form CPA-4425, addressed to the Civilian Production Administration, Washington 25, D. C., Ref.: PR-13, Direction 16. This form can be obtained from the Civilian Production Administration, Washington 25, D. C., or CPA District Construction Offices.

(c) *When the CPA may issue urgency certificates.* (1) It is the general policy of the CPA not to grant urgency certificates for Government owned surplus property. However, the CPA may in limited cases grant such certificates, good for 60 days, for items of equipment needed to support production of critical products under the following conditions:

(i) The equipment is required to sustain or increase production of a critical product listed in Schedule I of Priorities Regulation 28; and,

(ii) The applicant has been unable to obtain the equipment from new production as soon as required, without a rating. (If a CC rating has been assigned, and the equipment is not obtainable from new production as soon as required, an urgency certificate may be issued in place of the rating. If a CC rating has already been assigned, or an application has already been submitted for a rating for the desired equipment, a request to substitute an urgency certificate under this direction may be made by letter addressed to CPA, Washington 25, D. C., Ref.: PR-13, Direction 16, instead of using CPA 4425).

(2) CPA will carefully screen all requests, and issue urgency certificates only when in its judgment such action is deemed necessary in the interest of production of the critical products described in Schedule I of Priorities Regulation 28.

(d) *How to use an urgency certificate.* If a CPA urgency certificate is issued, it will be given to the applicant in duplicate. These certificates are good only for Government property which has been declared surplus to War Assets Administration and will cover equipment of the type requested or equivalent equipment. The certificate holder should present both copies of the certificate to a local sales office of War Assets Administration, together with his written order or bid as required by it. It is important that these certificates be filed with War Assets Administration promptly, since every urgency certificate expires 60 days after its issuance by CPA.

(e) *Effect of urgency certificates on disposal agencies.* (1) Unless CPA specifically directs otherwise, the local sales office of War Assets Administration must give precedence to holders of CPA urgency certificates

over any other class of buyers in selling any surplus equipment of the type covered by urgency certificates which have been filed with it and which have not expired. The price and terms of sale of specific equipment to a holder of an urgency certificate and the relative precedence among holders of urgency certificates will be determined by War Assets Administration. If the sale is made through a dealer, War Assets Administration will designate the certificate holder who is to receive the equipment, and the dealer must give War Assets Administration a certification in substantially the following form:

The undersigned certifies to the seller and to CPA, subject to the criminal penalties of section 35 (A) of the United States Criminal Code that he will resell promptly the equipment obtained with this certificate to \_\_\_\_\_ (insert name of urgency certificate holder designated by War Assets Administration).

The standard certification described in Priorities Regulation 7 may not be used instead of this certification. Any person giving the certification described above must dispose of the equipment he gets with it in accordance with its terms.

(2) If a holder of an urgency certificate is unwilling or unable to meet the price and terms of sale determined by War Assets Administration, it is not required to make the sale.

(f) *Expiration of urgency certificates.* Every urgency certificate expires 60 days after its issuance by CPA. If any person to whom an urgency certificate has been issued is unable to obtain the equipment covered by the certificate before it expires, he may file an application on Form CPA-4425 for renewal, after the original certificate has expired. CPA may issue a new certificate if the applicant still meets the criteria described in paragraph (c).

Issued this 5th day of April 1946.

[Conservation Order M-328, Direction 31, as  
Amended Apr. 5, 1946]

COTTON AND RAYON FABRICS FOR PROCESSING  
IN PUERTO RICO, FIRST AND SECOND CAL-  
ENDAR QUARTERS, 1946

The following amended direction is issued pursuant to Conservation Order M-328:

(a) *Purpose.* There is a shortage of materials needed for processing by the needlework industry in Puerto Rico, and this shortage is so serious as to threaten the economy of the Island.

The purpose of this direction is to provide priorities assistance for the procurement, during the first and second calendar quarters of 1946, for certain types of cotton and rayon fabrics that are urgently needed for this purpose. The remainder of the first and the second quarter will be considered one period and only one application for a preference rating may be made. Some of the fabrics are to be made available from the normal sources of supply in this country, and additional quantities from supplies now held by the War Assets Administration as Surplus Property under Surplus Property Declaration No. 6-14851, as explained in Direction 13 to Priorities Regulation 13.

(b) *Applications.* All applications for a CC rating under this Direction should be

made on Form CPA-2842 (dated January 24, 1946), copies of which may be obtained from the Civilian Production Administration, Washington 25, D. C.

(1) The applications should be sent to the Department of the Interior, Division of Territories and Island Possessions, Room 4122, Washington 25, D. C., and must be filed not later than March 12, 1946 in order to be assured of consideration under this direction.

(2) Applications may be made for priorities assistance for rayon broad woven fabrics, and for the following cotton broad woven fabrics:

Aeronautical cloths, lawns, all other combed yarn fabrics, and print cloth yarn fabrics.

(3) In addition to the information called for by Form CPA-2842 each applicant must indicate his plans for the processing of the fabric in Puerto Rico by supplying the following information on that form or in an accompanying letter:

(i) The contractor or contractors located in Puerto Rico who will process the fabric for which the rating is to be applied.

(ii) The type of work to be done on each end product listed in column (b) of the form such as embroidery, hand sewing, etc.

(iii) Show labor and overhead costs or amount paid to contractors for work to be done in Puerto Rico on the materials going into each end product listed in column (b) of Section I of the form.

(iv) In column (e) of Section I of the form state the quantity or quantities of each fabric required for both the first and second quarters of 1946.

NOTE: Leave blank column (c) of Section I of the form.

The reporting requirements of this direction have been approved by the Bureau of the Budget under the Federal Reports Act of 1942.

(4) The total amount of the materials for which ratings may be assigned is limited. Applications, including those from persons not previously engaged in the business of having materials manufactured in Puerto Rico will be processed on an equitable basis, consistent with the most effective fulfillment of the purposes of the program, and taking into consideration the data submitted under subparagraph (b) (3) above, and other pertinent factors.

(c) *Quantity of materials available under this program.* CC ratings will be issued to applicants in quantities which, in the aggregate, are not greater than the yardages of fabric, including that being made available from surplus property, covered by the program. No applicant may place these CC ratings or use the certificate described in Direction 13 to Priorities Regulation 13, to order a total yardage, whether to be obtained from regular suppliers or as surplus property, of more than the quantity for which CC ratings are authorized under this direction. Thus an applicant who has been assigned a CC rating for lawns, and has placed a bid with War Assets Administration for some or all of the lawns, may place the CC rating only for the total quantity authorized less the quantity covered by his bid. If WAA does not agree to sell the full quantity of his bid, he may then place his CC rating on orders to get from new production the balance of the lawns covered by his bid. An applicant who has already placed CC rated orders for more yardage than he is entitled to under the above rules, must reduce or cancel these orders or notify his suppliers to treat them as unrated to the extent necessary to bring them within the quantities permitted.

(d) *Use of materials.* All materials obtained with a rating assigned under this

order, or obtained with a certificate given under Direction 13 to Priorities Regulation 13, must be shipped immediately to Puerto Rico, either as whole cloth or as cut pieces ready for fabrication or processing, under arrangements by which the material will be processed in accordance with the representations made by the applicant with his application on Form CPA-26.2, and any conditions which may be imposed in the authorization which is issued him. Further, each applicant must provide that the processing of the material will be done in Puerto Rico at as nearly a uniform rate as practicable during the period from the date of the arrival of the goods in Puerto Rico through June 30, 1946.

Issued this 5th day of April 1946.

## Chapter XI—Office of Price Administration

### PART 1393—ICE

[MPR 154, as Amended,<sup>1</sup> Incl. Amdts. 1-15]

#### ICE

This compilation of Maximum Price Regulation 154, as amended, includes Amendment 15, effective April 10, 1946. The text added or amended by Amendment 15 is underscored.

A statement of the considerations involved in the issuance of Maximum Price Regulation No. 154 as Amended, issued simultaneously herewith, has been filed with the Division of the Federal Register.<sup>2</sup>

In the judgment of the Price Administrator, it is necessary to establish maximum prices for the sale of ice because the prices prevailing in March 1942 were abnormally low in relation to the prices in other industries. As the ice business is primarily seasonal in nature, it has been the custom in the ice business to make price increases only at the beginning of the summer season, which occurs in most regions of the United States in the month of April. Accordingly, in most cases, the prices for ice prevailing in March 1942 did not reflect increased costs incurred since the summer season of 1941, and consequently, as noted above, were abnormally low in relation to the prices prevailing in other industries in which price increases are not limited to a particular time of year. The maximum prices established by this regulation are, in the judgment of the Price Administrator, generally fair and equitable, and in conformity with the general level of prices established by the General Maximum Price Regulation.<sup>3</sup>

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942 and in accordance with Procedural Regulation No. 1,<sup>4</sup> issued by the Office of Price Administration, Maximum Price Regulation No. 154 As Amended, is hereby issued.

<sup>1</sup> 10 F.R. 7048.

<sup>2</sup> Statements of considerations are also issued with amendments. Copies may be obtained from the Office of Price Administration.

AUTHORITY: §§ 1393.1 to 1393.12 inclusive, issued under 56 Stat. 23, 765; 57 Stat. 566; Pub. Law 383, 78th Cong.; Pub. Law 108, 79th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681; E.O. 9599, 10 F.R. 10155; E.O. 9651, 10 F.R. 13487, E.O. 9697, 11 F.R. 1691.

§ 1393.1 Maximum prices for ice. On and after July 8, 1942, regardless of any contract, agreement, lease or other obligation, no person shall sell or deliver ice and no person in the course of trade or business shall buy or receive ice at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1393.12; and no person shall agree, offer, solicit, or attempt to do any of the foregoing.

[§ 1393.1 amended by Am. 12, 10 F.R. 10084, effective 8-13-45 and Am. 15, effective 4-10-46]

§ 1393.2 Less than maximum prices. Lower prices than those set forth in Appendix A (§ 1393.12) may be charged, demanded, paid or offered.

§ 1393.3 Adjustable pricing. Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration having authority to act upon the pending request for a change in price or to give the authorization. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

[§ 1393.3 amended by Am. 4, 8 F.R. 7593, effective 6-4-43; and Am. 7, 9 F.R. 2300, effective 3-4-44]

§ 1393.4 Evasion. The price limitations set forth in this Maximum Price Regulation No. 154 as amended, shall not be evaded, whether by direct or indirect

methods, in connection with an offer, solicitation, agreement, sale or delivery of, or relating to the sale of ice, alone or in conjunction with any other commodity, or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

Specifically, but not exclusively, the following practices are prohibited:

(a) The reduction or elimination of discounts in effect during April 1942, with respect to any particular class of purchasers, or, where the seller's maximum price for ice is established under § 1393.12 (a) (2), the reduction or elimination during any of the months from April to October, inclusive, of the discounts in effect during the corresponding month of 1941 with respect to any particular class of purchasers.

(b) Changes in the classification of purchasers of ice which were in effect during April 1942, or, where the seller's maximum price for ice is established under § 1393.12 (a) (2), changes during any months from April to October, inclusive, in the classification of purchasers of ice in effect during the corresponding month of 1941.

§ 1393.5 Enforcement. (a) Persons violating any provision of this Maximum Price Regulation No. 154 as amended, are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for the suspension of licenses provided by the Emergency Price Control Act of 1942, as amended.

(b) Persons who have any evidence of any violation of this Maximum Price Regulation No. 154 as amended, or of any acts or practices which constitute such a violation are urged to communicate with the nearest District or Regional Office of the Office of Price Administration, or its principal office in Washington, D. C.

[NOTE: Supplementary Order No. 7 (7 F.R. 5176) provides that war procurement agencies and governments whose defense is vital to the defense of the United States shall be relieved of liability, civil or criminal, imposed by price regulations issued by the Office of Price Administration.]

[NOTE: Under the provisions of Revised Supplementary Order 44 (10 F.R. 11065) MPR 154, as amended, is adopted and affirmed to be applicable to the Territory of Hawaii.]

§ 1393.5a Licensing. The provisions of Licensing Order No. 1,<sup>5</sup> licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

[§ 1393.5a added by Supplementary Order No. 72, 8 F.R. 13244, effective 10-1-43]

§ 1393.6 Applicability of General Maximum Price Regulation. Except as provided in § 1393.7 the provisions of this Maximum Price Regulation No. 154

<sup>5</sup> 8 F.R. 13240.

as amended, supersede the provisions of the General Maximum Price Regulation with respect to sales or deliveries of ice for which maximum prices are established by this regulation.

§ 1393.7 *Relationship between this regulation and the General Maximum Price Regulation.* The following sections of the General Maximum Price Regulation, as well as amendments to them, apply to sales covered by this regulation:

(1) Supplemental regulations (§ 1499.4).

(2) Transfers of business or stock in trade (§ 1499.5), except that the date, June 4, 1943, shall be substituted for the date, April 28, 1942, contained in that section.

[Subparagraph (2) amended by Am. 6, 8 F.R. 12660, effective 9-20-43]

(3) Federal and State taxes (§ 1499.7).

(4) Current Records (§ 1499.12).

(5) Maximum prices of cost-of-living commodities: statement, marking or posting (§ 1499.13).

(6) Sales slips and receipts (§ 1499.14).

[Subparagraphs (7) and (8) deleted by Supplementary Order 72, 8 F.R. 13244, effective 10-1-43]

(9) Definitions (§ 1499.20 (g), (h), (i), (k), (m), (o), (p), (r) and (s)).

[§ 1393.7 amended by Am. 4, 8 F.R. 7593, effective 6-4-43 and as otherwise noted]

§ 1393.8 *Applications for adjustment.*

(a) *Conditions.* Any regional office of the Office of Price Administration or such other offices as may be authorized by order issued by the appropriate regional office may, either on application or its own motion, adjust, by order, the maximum prices of ice established under the Maximum Price Regulation No. 154, as amended, for any seller or group of sellers whenever it appears:

(1) That a shortage in the supply of ice available to the seller's locality exists or threatens to occur; and

(2) That such local shortage will be substantially reduced or eliminated by adjusting the maximum prices for ice for such seller or sellers; and

(3) That such adjustment will not create or tend to create a shortage or a need for an increase in prices in another locality, and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

A local shortage may be said to exist or to be threatened when a shortage of ice supply in total sales or in a particular class of sales has arisen or threatens to arise because maintenance of existing maximum prices creates financial hardship in over-all operations or in particular classes of sales threatening the seller's ability to continue such sales, and when only by a price adjustment can such shortage be relieved or averted. More specifically, when maximum prices are so low that they do not produce sufficient revenue to cover the costs of producing, procuring, delivering and selling ice, plus the minimum amount of return neces-

sary to assure an adequate and continuous supply in the locality, a local shortage may be said to exist or to be threatened.

Shortages will not be recognized if it appears that they arise out of factors other than the price level such as lack of manpower, inability to obtain materials and supplies, transportation conditions, or other difficulties apart from maximum prices. Subject to these limitations a local shortage exists or threatens when it appears that the supply of ice is less or will be less than local essential consumer demand in the area served by the applicant. Factors to be considered in this connection will be the normal consumption of ice in the trade area served by the applicant, actual or expected changes therein as a result of population changes and other relevant factors, and the amount of ice available in that particular community as measured by the production and storage capacities of all sellers in that market area.

[Paragraph (a), formerly (e), added by Am. 3, 8 F.R. 1270, effective 2-2-43; redesignated by Am. 10, 10 F.R. 7048, effective 6-18-45 and amended by Am. 15, effective 4-10-46. Former paragraph (a) deleted by Am. 10]

(b) *Standards.*—(1) *General basis of adjustment.* Adjustments will be based, in general, upon a comparison of applicant's earnings in his most recent twelve-month accounting period with earnings in the base period years (ordinarily 1936-1939) and subject to the determination by the Administrator of what constitutes an appropriate net return in relation to base period earnings.

(2) *Other considerations.* In measuring the extent of adjustment consideration will be given also (1) to increased production and delivery costs which the seller of ice in the locality affected must incur in order to produce and deliver such ice as compared with production and delivery costs in April 1942, or, for natural ice, as compared with the nearest earlier month in which such ice was harvested and packed in such locality; and (2) to such other circumstances as may be pertinent to the procurement of sufficient supplies of ice to meet the requirements of the locality affected.

(3) *Excess importation costs.* Where a seller must import ice from other localities at costs in excess of the costs of local manufacture or procurement during the most recent calendar month, and the total cost of ice so imported is in excess of the average imported cost absorbed by that seller in a corresponding period in 1938, 1939 and 1940, an adjustment may be granted sufficient to allow such importer of ice to recover, over an appropriate period, the dollar amount of such excess cost.

[Paragraph (b), formerly (f), added by Am. 3, 8 F.R. 1270, effective 2-2-43; redesignated

and amended by Am. 10, 10 F.R. 7048, effective 6-18-45; amended by Am. 15, effective 4-10-46. Former paragraph (b) amended by Am. 1 and deleted by Am. 10]

(c) In making application for adjustment, any manufacturer of ice who sells at retail and also sells ice to distributors and peddlers for resale at retail may make application for adjustment on behalf of those distributors and peddlers who customarily purchase ice from him. If an adjustment of the manufacturer's maximum price is granted upon such application, a like adjustment of the maximum prices of the distributors and peddlers included in the application may be granted.

In any case where an adjustment is made in the ceiling prices of ice sold at retail by distributors and peddlers, pursuant to an individual application, the ceiling price of ice sold to such distributors and peddlers by manufacturers may, without order, be adjusted upward by an amount not to exceed the amount of the increase in price per ton granted such distributors and peddlers, except that where the Administrator or a Regional Administrator upon his own motion has adjusted maximum prices for ice at all levels and for all sellers within a defined geographical area, no upward adjustment of manufacturers' ceiling prices to their distributors and peddlers may be made except under specific order of the Administrator or Regional Administrator.

Applications for adjustment shall be filed in accordance with Revised Procedural Regulation No. 1, and must supply information substantially as called for by OPA Form 6043-2751 (Appendix C). Although it is not a requirement, in most cases consideration of applications may be facilitated by the applicant's use of this Form, which may be procured from OPA District or Regional Offices.

[Paragraph (c), formerly (g) added by Am. 3, 8 F.R. 1270, effective 2-2-43; redesignated by Am. 10, 10 F.R. 7048, effective 6-18-45; and amended by Am. 15, effective 4-10-46. Former paragraph (c) amended by Am. 1 and deleted by Am. 10]

(d) *Special provisions; car-icing sales.* This paragraph (d) contains a flat pricing provision and an adjustment procedure supplementing the general provisions of the regulation and applying exclusively to car-icing sales. Nothing contained in this paragraph (d) shall prevent any seller of ice from making application for price increase for any class of ice, under paragraphs (a), (b) and (c) of § 1393.8. Definitions of terms used in this paragraph (d) are set out, in conjunction with OPA Form No. 644-2452, in Appendix B to this regulation.

(1) *Flat maximum price.* The maximum price for ice sold for car-icing purposes by any seller of ice subject to this regulation, whose lawful maximum price otherwise established under this regulation is less than \$3.00 per ton, shall be

\$3.00 per ton, provided, however, that any seller who shall increase his maximum price to \$3.00 under this subparagraph must first file a report thereof with the District Office of the Office of Price Administration nearest the seller's icing location at which such increase is made effective.

(2) *Adjustment by buyer-seller agreement.* Maximum prices for car-icing sales may be adjusted for any seller by the Office of Price Administration pursuant to an application by the buyer and the seller under the following conditions:

(i) The application must be filed on OPA Form No. 644-2452 (Appendix B) in accordance with the directions set forth therein.

(ii) The seller may request a price increase equal in cents per ton to the labor cost increase per ton in the most recent twelve-calendar-month period over the labor cost per ton for the seller's normal fiscal year ending nearest to April 30, 1942, subject to the limitations in subdivision (v) hereof.

(iii) The purchaser, joining in the application, must agree to absorb the proposed increase without passing it on in an increase in the prices or charges of such purchaser for commodities or services sold by such purchaser. This commitment, however, shall be without prejudice to the purchaser including such increased costs in any application for increased rates or charges in any proceeding before an authorized State or Federal regulatory agency, in which consideration of the proposed increases is based upon revenue needs. Specifically, any person furnishing protective service under contracts subject to section 14 (b), Part 1, of the Interstate Commerce Act may join in applications for adjustment by buyer-seller agreement under this subparagraph 2 (and, accordingly, execute the Purchaser's Certification, Item F of OPA Form 644-2452), notwithstanding the foregoing requirement that the purchaser must agree to absorb the proposed increase.

[Subparagraph (iii) amended by Am. 13, 10 F.R. 13594, effective 11-5-45]

(iv) The seller must agree to maintain the same ratio of car-icing sales to total sales, to the extent required by purchasers and available to the seller, as prevailed at that icing location during the twelve-month period immediately preceding the date of application.

(v) Price adjustments authorized under this subparagraph (2) may not exceed 20% of the highest price charged by the seller for car-icing sales at the subject icing location during April 1942; and in no event may the adjustment amount to more than \$1.00 per ton above the April 1942 price.

Applications for adjustment under this subparagraph (2) shall be filed only with the Transportation and Public Utilities Division, Office of Price Administration, Washington 25, D. C. Upon consideration of the application, the Administrator will issue an order denying, in whole or in part, the requested adjustment in maximum price, or the Director of the Transportation and Public Utilities Division will issue a notice of approval or require that additional information be

submitted. If none of these actions is taken within 20 days after the filing of the application, or after additional information has been supplied, the application shall be deemed to be approved. Note, however, that all approvals, whether made by affirmative action or by operation of the 20-day provision, are subject to revocation or modification by the Administrator at any time.

[Paragraph (d) added by Am. 10, 10 F.R. 7048, effective 6-18-45. Former paragraph (d) added by Am. 1, 7 F.R. 5944, effective 8-5-42; amended by Am. 2, 7 F.R. 8940, effective 11-4-42; and deleted by Am. 10, 10 F.R. 7048, effective 6-18-45]

[Section heading amended by Am. 1]

§ 1393.9 *Petitions for amendment.* Any person seeking an amendment of any provision of this Maximum Price Regulation 154, as amended, may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

[§ 1393.9 amended by Supplementary Order No. 26, 7 F.R. 8948, effective 11-4-42]

[Note: Procedural Regulation No. 6 (9 F.R. 10628; 10 F.R. 1382, 9394) provides for the filing of applications for adjustment of maximum prices for commodities or services under Government contracts or subcontracts. Revised Supplementary Order No. 9 (8 F.R. 6175; 10 F.R. 9394) makes the provisions of Procedural Regulation No. 6 applicable to all price regulations, with the exception of those which expressly prohibit such applications, and certain specific regulations listed in Revised Supplementary Order No. 9.]

§ 1393.10 *Definitions.* (a) When used in this Maximum Price Regulation No. 154 as amended the term:

(1) "Platform sale" (or bridge, or dock sale) is a sale of ice, delivery of which is made to the purchaser at the seller's place of business.

(2) "Delivered sale" is a sale of ice delivered to a purchaser at a point other than the seller's place of business.

(3) "Highest price charged" shall be (i) the highest price which the seller charged for ice delivered by him during any designated period or (ii) if the seller made no such delivery during any designated period, his highest offering price for delivery during that designated period.

(4) "Straight run crushed ice" is ice which has been reduced from block or cut form, by means of breaking or crushing, into various sized smaller pieces, the largest of which smaller pieces normally do not exceed  $\frac{1}{4}$  pound in weight, and which is sold unsegregated as to the resultant sizes or degrees of fineness. The term includes such ice whether the breaking or crushing is done manually or by processing through mechanical crushers. Ice broken into chunks under the usual trade practice for dropping into bunkers of refrigerator cars or similar protective conveyances is not crushed ice within this definition.

(5) "Crushed and sized ice" is ice which, having been reduced in size consistently with the above definition of "straight run crushed ice", is then segregated, by screening, into two or more approximately uniform sizes, and sold in such separate sizes.

[Subparagraphs (4) and (5) added by Am. 14, 11 F.R. 1593, effective 2-18-46]

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1393.11 *Effective dates.* (a) This Maximum Price Regulation No. 154 as Amended (§§ 1393.1 to 1393.12, inclusive) shall become effective July 8, 1942. [MPR 154, as amended, originally issued July 3, 1942]

[Effective dates of amendments are shown in notes following the parts affected]

§ 1393.12 *Appendix A: Maximum prices for ice—(a) Determination of maximum prices—(1) Generally.* The seller's maximum delivered price and the seller's maximum platform price for any form, quantity, and quality of ice shall be the highest price charged by the seller for such form, quantity, and quality of ice during April 1942 on a delivered sale or on a platform sale respectively to a purchaser of the same class: *Provided*, That in the event the seller's only deliveries to any class of purchasers during April 1942 were made pursuant to a contract or contracts entered into prior to October 1, 1941, the seller's maximum delivered price and seller's maximum platform price to a purchaser of that class for any form, quantity, and quality of ice shall be (i) the highest delivered price or the highest platform price respectively for such form, quantity, and quality of ice for which provision is made in any contract entered into with a purchaser of said class after October 1, 1941 and prior to April 28, 1942, even though no deliveries were made under such contracts in April 1942, or (ii) if the seller has not entered into any contract with a purchaser of that class after October 1, 1941, and prior to April 28, 1942, a price determined in accordance with paragraph (b) of this section.

[Subparagraph (1) corrected, 7 F.R. 5276, effective 7-10-42]

(2) *Alternative maximum prices.* During the months from April to October inclusive, a seller of ice may charge on a delivered sale or a platform sale for any form, quantity, and quality of ice, the highest price charged by the seller for such form, quantity, and quality of ice on a delivered sale or on a platform sale respectively during the corresponding month of 1941 to a purchaser of the same class: *Provided*, That to avail himself of this alternative method of determining maximum prices the seller must be able to demonstrate by appropriate written records what his prices actually were during the corresponding months of 1941 and must preserve such records and make them available for examination by the Office of Price Administration.

(3) *Crushed and sized ice and straight run crushed ice.* Regardless of price limitations otherwise imposed by subparagraphs (1) or (2) above, a seller's maximum price for "crushed and sized ice" and for "straight run crushed ice" may be determined by application of the following differentials over that seller's price for ice in blocks or cuts customarily sold to purchasers of the same class, sub-

ject to dollars-and-cents limitations as indicated:

	Differ- ential	Not to exceed—
	Percent	Per ton
Crushed and sized ice.....	20	\$2.00
Straight run crushed ice.....	15	1.50

This subparagraph (3) is permissive only; it shall not be construed as requiring reduction of prices for crushed and sized ice or straight run crushed ice properly established under other provisions of this section.

[Subparagraph (3) added by Am. 14, 11 F.R. 1593, effective 2-18-46]

(b) *Maximum prices determined by reference to maximum prices of most closely competitive seller*—(1) *Generally*. Except as otherwise provided in subparagraphs (2), (3), or (4) below, or in paragraph (g) of this section, if the seller's maximum price for ice cannot be determined under paragraph (a) (1) of this section, and is not or cannot be determined under paragraph (a) (2) of this section, the seller's maximum delivered price and the seller's maximum platform price for any form, quantity, and quality of ice shall be the maximum price established under paragraph (a) (1) of this section for the most closely competitive seller of the same class for such form, quantity, and quality of ice on a delivered sale or on a platform sale respectively to a purchaser of the same class.

(2) *Expiring long term contracts*. Determination of maximum prices for ice sold pursuant to long term contracts as covered in paragraph (a) (1) above, may be made by reference to the most closely competitive seller's current lawful maximum price for ice of the same classification, rather than by reference to the most closely competitive seller's April 1942 price, where such competitor's maximum price for this classification has been adjusted by order of the Administrator.

(3) *New sellers and sales of new classifications or new services by existing sellers*. Bona fide new manufacturing plants or other new sellers (note § 1393.4), and existing sellers proposing to sell ice in new classifications or to provide new icing services, may establish their ceiling prices by reference to the current lawful maximum prices for such sales or services by the most closely competitive seller of the same class serving the same market area or trade territory.

(4) *Alternative maximum prices*. If a seller has customarily charged higher prices during the summer season than during the rest of the year, and if the seller's maximum price for ice cannot be determined under paragraph (a) (2) of this section, the seller may charge

during the months from April to October inclusive, on a delivered sale or on a platform sale for any form, quantity, and quality of ice the maximum price established under paragraph (a) (2) of this section for the most closely competitive seller of the same class for such form, quantity, and quality of ice on a delivered sale or on a platform sale respectively to a purchaser of the same class.

[Paragraph (b) amended by Am. 15, effective 4-10-46]

(c) *Maximum prices for specially treated ice not sold prior to April 1942*. The maximum price for specially treated ice for which a maximum price is not established by paragraphs (a) or (b) above shall be determined upon application filed with the Director of the Transportation and Public Utilities Division, Office of Price Administration, Washington 25, D. C. Such maximum prices will be established by order of the Administrator in line with the level of maximum prices otherwise established by this regulation. Applications under this paragraph shall contain the following:

1. Name and address of the seller, indicating whether an individual, partnership, association, or corporation;
2. Brief description of the business;
3. Description of the customers or class of customers to be served;
4. A complete description of the specially treated ice for which a maximum price is sought;
5. A statement of the reasons why such specially-treated ice cannot be priced under paragraphs (a) or (b) above;
6. The maximum price proposed by the seller, and a specific breakdown of all relevant cost factors, including material, fuel or power, direct labor, other direct operating expenses, and applicable overhead costs; and
7. Any other facts which the seller wishes to submit in support of the application.

The application must be signed by the applicant personally, or if a partnership by a partner, or if an association or corporation by a duly authorized officer thereof.

Pending consideration of the application, sales and deliveries of the commodity may be made at prices not in excess of the maximum prices for untreated ice in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration in conformity with § 1393.3 of this regulation, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Orders issued under this paragraph may be made applicable to all sellers of a particular kind of specially-treated ice and will contain such restrictions and limitations as are deemed necessary by the Administrator.

[Paragraph (c) added by Am. 9, 10 F.R. 4246, effective 6-11-45. Former paragraphs (c), (d) and (e) redesignated as (d), (e) and (f) by Am. 9]

(d) No seller shall require any purchaser, and no purchaser shall be permitted to pay a larger proportion of transportation costs incurred in the delivery or supply of ice than the seller required purchasers of the same class to

pay during April 1942, except that during the months of April to October inclusive, where the seller's maximum price for ice is established by paragraph (a) (2) of this section, no seller shall require any purchaser, and no purchaser shall be permitted to pay a larger proportion of transportation costs incurred in the delivery or supply of ice than the seller required purchasers of the same class to pay during the corresponding month of 1941.

[NOTE: Supplementary Order No. 31 (7 F.R. 9894, 8 F.R. 1312, 3702, 9521) provides that: "Notwithstanding the provisions of any price regulation, the tax on transportation of all property (excepting coal) imposed by section 620 of the Revenue Act of 1942 shall, for purposes of determining the applicable maximum price of any commodity or service, be treated as though it were an increase of 3% in the amount charged by every person engaged in the business of transporting property for hire. It shall not be treated, under any provision of any price regulation or any interpretation thereof, as a tax for which a charge may be made in addition to the maximum price."]

(e) The charges made for any special service shall not exceed the charge made during April 1942 except that where, during the months from April to October, inclusive, the seller's maximum price for ice is established by paragraph (a) (2) of this section, the charges made for any special services shall not exceed the charges made during the corresponding month of 1941.

[NOTE: 2nd Revised Supplementary Order No. 34 (10 F.R. 2014) permits, under certain conditions, the addition of special packing expenses to maximum prices on sales to procurement agencies of the United States.]

(f) *Maximum prices for natural ice*. (1) [Deleted]

[Subparagraph (1) amended by Am. 8, 9 F.R. 14852, effective 12-20-44 and Am. 11, 10 F.R. 8660, effective 7-16-45, and automatically deleted by the terms of Am. 11]

(2) *Harvester's maximum prices determined by reference to highest price charged during the harvest period*. If the harvester's maximum price for natural ice cannot be determined under paragraphs (a) or (b) of this section, the harvester's maximum delivered price and the harvester's maximum platform price for any form, quantity and quality of such ice shall be the highest price charged by the harvester for such form, quantity and quality of natural ice during the month or months of harvest of such seller in the period from December 1, 1941 through March 31, 1942 on a delivered sale or platform sale respectively to a purchaser of the same class.

(3) *Transportation and special service charges*. (i) No harvester of natural ice who determines his maximum price under subparagraph (2) shall require any purchaser, and no purchaser shall be permitted to pay a larger proportion of transportation costs incurred in the delivery or supply of natural ice than the harvester required purchasers of the same class to pay during the month or months of harvest of such seller in the period from December 1, 1941 through March 31, 1942; and

(ii) The charges made for any special service rendered by such harvester shall

not exceed the charge made during the month or months of harvest of such seller in the period from December 1, 1941 through March 31, 1942 for such special service to purchasers of the same class.

[Paragraph (f), formerly (e) added by Am. 3, 8 F.R. 1270, effective 2-2-43]  
[Original paragraph (f) added by Am. 4, 8 F.R. 7593, effective 6-4-43; corrected 8 F.R. 8844, effective 7-2-43; revoked by Am. 5, 8 F.R. 10514, effective 7-26-43]

(g) Maximum prices for sales and service which cannot be determined by the other provisions of this section. If maximum prices cannot reasonably be determined under the foregoing provisions of this section, they must be established pursuant to application filed with the nearest District Office of the OPA for approval of a maximum price in line with the level of prices otherwise established by this regulation.

(1) The application shall contain a full description of the sales classification or service, the applicable material, labor and other costs, and must show conclusively that maximum prices cannot equitably be determined under other provisions of this section. Additional information must be furnished if requested by OPA.

(2) Applications shall show a comparison in costs and prices between the sales classification or service for which a price determination is being made, and the costs and prices of the most nearly comparable service, if any, being currently rendered.

(3) The OPA may disapprove or revise maximum prices proposed or established under this section where necessary to bring such maximum prices into line with the level of maximum prices generally established by this regulation, and in no event will prices be approved in excess of the total applicable costs plus an amount reflecting the percentage of net realization being currently earned by applicant in the most nearly comparable class of sales or services, reported pursuant to subparagraph (2) above.

(4) Applicant may not sell the ice or service at the maximum prices requested under this section until that price has been authorized by the OPA, except that the proposed price shall be considered approved and authorized upon the expiration of twenty days after the application, or requested additional information, has been filed, unless within that period the OPA notifies applicant that the requested price has been disapproved or requests additional information. Any approval may be subsequently modified or revoked by the OPA.

## F—Purchaser's Certification (To be executed by purchaser)

hereby certifies that:

- (1) Purchaser has reviewed the statements made herein.
- (2) Purchaser cannot procure sufficient ice for car icing purposes from any other supplier of ice at the desired icing location at prices lower than requested herein, and failure to secure ice will result in insufficient refrigeration for the safe and economical transportation of perishable food products.
- (3) \*Purchaser agrees to pay and absorb the increased price requested herein and will not increase its own charges on account of such increase in ice prices.

\*This statement is made without prejudice of the purchaser's right to present for consideration by any regulatory authority, the increased cost resulting from the new ceiling price of ice together with any other cost increases in any future application of purchaser for a general rate or price increase based upon the revenue needs of purchaser.

## INSTRUCTIONS

(1) *Filing this form and OPA action.* (Copies of this form may be secured from any District or Regional Office of the Office of Price Administration or the Transportation and Public Utilities Division, Office of Price Administration, Washington 25, D. C.)

An original and one copy of this form are to be completed and filed with the Transportation and Public Utilities Division of the Office of Price Administration, Washington 25, D. C. at least 20 days prior to the date that applicant expects adjusted ceiling prices to become effective as shown in section "A".

In accordance with provisions of § 1393.8 (d) (2) of MPR 154, as amended, the adjusted ceiling price requested herein shall become effective upon affirmative approval by the Transportation and Public Utilities Division, Office of Price Administration, Washington, D. C., or upon the expiration of 20 days from the date of filing in the absence of a specific order of disapproval, a request for further information, or notice that this form may be inappropriate for this pricing action.

(2) *General applicability.* This method of request for adjustment in the ceiling price for ice is to be used only for "car icing sales" as defined below and relates only to labor cost increases for car icing operations during the most recent twelve month period preceding date of application over such labor cost for the seller's normal fiscal year ending nearest to April 30, 1942.

(3) *Amount of adjustment.* No adjustment in the ceiling prices of ice used for car icing sales as defined herein may be made as the result of an application on this form in excess of the increased car icing labor cost as determined under Section "D" herein during the most recent twelve month period preceding date of application over the seller's normal fiscal year ending nearest to April 30, 1942, and in no event more than in an amount equal to 20 percent of the April 1942 ceiling price. Application for price increases in excess of these limits, or based upon cost increases other than for car icing labor, may be filed in accordance with § 1393.8 (a), (b) and (c) of MPR 154, as amended, but cannot be made on this form.

Address of seller is to be the location of plant where icing operations are performed.

Sections "A" "B" "C" "D" and "E" are to be filled in completely by the seller. Data under Section "D" relates to the total car icing operations of the seller at the plant or location herein.

*Definitions—"Car-icing sales."* As used in this regulation the term "Car-Icing Sales"

refers to ice sold to railroads, express companies, boat lines, truck lines, fishing fleets, and commercial shippers of perishable products using the foregoing facilities, for use and consumption by the purchaser. For purposes of this definition no distinction shall be made between ice used for pre-cooling, initial icing, or re-icing purposes.

[Above paragraph amended by Am. 15, effective 4-10-46]

Car-icing, as used herein, is not intended to cover sales in small quantities to individual fishing boats, milk handlers and dealers, small truck gardeners and poultry processors, or for similar purchasers who use ice to transport perishable food products to local and adjacent markets. Ice for this purpose is usually purchased in small quantities at the seller's platform with no manual icing operation required of the seller.

Since price increases permitted as a result of the use of this form are intended to relieve ice shortages in situations which may arise quickly and/or require immediate attention, and where sellers have had burdensome labor cost increases over the seller's normal fiscal year ending nearest to April 30, 1942, in car-icing operations, obviously only in cases where sellers are required to do manual icing operations, will such labor costs be excessive except for nominal amounts to compensate for production labor cost increases. It will be found that in most instances, car-icing sales, as defined herein, are for large tonnage requirements and are usually made pursuant to contracts, often long-term, entered into prior to October 1, 1941, and usually specifying the amount of manual icing operations required of the seller by the purchaser, and with such icing services included in the price per ton paid by the purchaser.

[Above definition amended by Am. 12, 10 F.R. 10084, effective 8-13-45]

"Seller." Seller, as used herein, means any seller of ice who is subject to price control of ice under Maximum Price Regulation No. 154, as amended.

"Purchaser." Purchaser, as used herein, means any purchaser of ice who buys ice in substantial quantities for uses described under the above definition of "car-icing sales".

*Car-icing labor.* (Section D) All executive salaries are to be excluded. (1) *Production labor.* Production labor, as used herein, shall be the total production labor, (including applicable payroll taxes and insurance), under the usual and accepted industry definition of production labor, but covering only the amount of such labor ap-

plicable to ice manufactured and sold for car-icing purposes, as defined herein. It is to include proportionately all labor costs of employees who treat makeup water, fill ice cans, pull ice, operate compressors or other ice manufacturing machinery, fire boilers, maintain the production equipment, and all other labor operations in connection with the production of ice up to the point of placing it in the vault. It is to be arrived at by (1) taking the total of all tons produced in the seller's normal fiscal year ending nearest to April 30, 1942 and the total of all tons produced during the most recent twelve month period preceding date of the application, (2) dividing these total tons into the total production labor cost for the entire plant operation in each year, and (3) multiplying this resultant cost per ton figure by the number of tons of car-icing ice only, in each of the respective years. By this method, there will be reflected under this section only the production labor applicable to the tons of ice made and sold for car-icing purposes.

(2) *Vault, storage, hauling and miscellaneous labor.* Include all labor (including applicable payroll taxes and insurance) of employees who stack or tier ice in vaults or storage houses, either by hand or by elevators; who bring ice from storage to point of delivery to transporting vehicles or to the icing docks adjacent to the vaults or storage rooms; and who operate refrigeration machinery used exclusively for refrigeration of ice for car-icing purposes. It includes also wages or salaries of maintenance crews for car-icing vaults, platforms and icing equipment. All clerical and supervisory labor applicable to car-icing operations (item 1, 2 or 3) shall be included in this item #2.

Include under this classification, all labor of employees who haul or transport ice from the platforms of the seller to the point of actual icing operations, where such operations are not at the plant sidings, including all drivers and handlers or other persons engaged in the hauling or transportation of ice for car-icing purposes.

(3) *Direct icing operations.* Include all labor (including applicable pay-roll taxes and insurance) of employees who operate car-icing drag chains or icing elevators; distribute ice along icing platforms; operate ice crushers or blowers conditioning ice for car-icing use; drag ice onto cars; break and place in bunkers; set bunker grates; clean out the bunkers; place ice in body of cars or in or on shipping containers within the cars; spot cars or otherwise engage in car-icing operations not included in (1) and (2) above.

**NOTE:** Where accurate time card distribution of labor costs is not kept and employees are used jointly for car icing and other operations, show by separate attachment the method of allocation of such labor cost between car-icing and other operations.

No labor costs for production (except as specified above), operation of vaults, platforms, retail stations, retail delivery operations, processing or storage for retail sales, executive salaries, or construction work on additions to plant may be included in car-icing labor.

If customary labor classifications of seller differ substantially from the classifications in items 1, 2, and 3 in section D, explanation may be made by separate attachment.

PART 1312—LUMBER AND LUMBER PRODUCTS  
[RMPR 293, Amdt. 14]

STOCK MILLWORK

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 293 is hereby amended in the following respects:

1. The first paragraph of section 9 (b) is amended to read as follows:

The amount by which the seller's acquisition cost of the item delivered to his warehouse would by reason solely of price increases authorized by the Office of Price Administration exceed his March 1942 net acquisition cost of the item if the item had been purchased from a supplier of the same class in the same quantities as in March 1942.

2. Paragraph (a) of Appendix B in section 18 is amended to read as follows:

(a) The maximum prices for Ponderosa pine glazed windows and sash sold alone, or with other millwork, in carload quantities shall be the net prices, f. o. b. mill, full freight allowed, computed by applying the base discounts shown in Tables I and II to the list prices and list extras contained in Standard Lists Catalog No. 40 and the list prices contained in Supplemental Lists to Standard Lists Catalog No. 40 as follows:

1. Garage doors glazed with SSB glass: \$1.35 net per pair or set.

5. Section 30; Appendix N is amended to read as follows:

Sec. 30. Appendix N: Supplemental lists to Standard Lists Catalog No. 40. The following Modular Standard lists of Ponderosa pine sash, windows, sash screens and window screens must be used by all sellers in computing maximum selling prices for any item contained therein. In computing maximum selling prices for items not on this supplemental list, the seller must base his computations on lists contained in Standard Lists Catalog No. 40. In establishing maximum selling prices for 2 light storm sash the seller will use the list price of the 1 1/2" 2 light checkrail windows. In establishing maximum selling prices for 4 light storm sash the seller will use the list price of the 1 1/2" 4 light checkrail windows.

Supplemental List No. 1. Unless otherwise specified, windows and sash will be supplied with wood parts no wider than standard layouts shown for each design and for an opening no larger than that shown.

#### PART 8309—CONTRACTOR INVENTORY AND DISPOSALS BY OWNING AGENCIES

Surplus Property Administration Regulation 9, October 12, 1945, entitled "Contractor Inventory and Disposals by Owning Agencies," as amended through Dec. 7, 1945, (10 F.R. 12961, 14966) is hereby further amended in the following respects:

1. Section 8309.1 (m) is amended to read as follows:

§ 8309.1 (m) "Salvage" means property that is in such a worn, damaged, deteriorated or incomplete condition, or is of such a specialized nature that it has no reasonable prospect of sale as a unit, or is not usable as a unit without major repairs or alteration. Salvage has some value in excess of its basic material content because it may contain serviceable components or may have value to a purchaser who may make major repairs or alterations. Salvage includes used containers and cable reels.

2. Section 8309.16 (b) is amended to read as follows:

§ 8309.16 (b) Except as specified in any order issued under paragraph (a) of this section, any owning agency is authorized to sell at the best price obtainable small lots in its possession at any one place at any one time. Such small lots should not be declared surplus to disposal agencies except in special cases and upon mutual agreement between the owning and disposal agency. A small lot shall consist of any item or group of identical items, normally constituting a single entry on Form SPB-1, the cost of which (estimated if not known) does not exceed \$100. Notwithstanding the foregoing, if, in the opinion of a disposal agency, such disposition of small lots of any given type of property interferes with the orderly marketing of such type of property by it, such agency may direct the owning agencies to cease sales of such property and to report such property as surplus pursuant to the act.

This amendment shall become effective April 4, 1946.

#### TITLE 47—TELECOMMUNICATION

##### Chapter I—Federal Communications Commission

[Order 130-E]

#### PART 12—AMATEUR RADIO: STATIONS AND OPERATORS

##### FREQUENCY BANDS

MARCH 29, 1946.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 29th day of March, 1946;

Whereas by Order No. 130-A, dated November 14, 1945, as amended by Order No. 130-B, dated January 16, 1946, and as further amended by Order No. 130-C, dated February 20, 1946 and as further amended by Order No. 130-D, dated March 13, 1946, the Commission made available for amateur station operation certain frequency bands; and

Whereas one of these bands, namely, 3700 to 4000 kilocycles, which was made available for use as of April 1, 1946, 3:00 a. m. Eastern Standard Time, by amateur stations within the continental limits of the United States, may now be expanded to include the frequencies from 3625 to 3700 kilocycles, and the use of the expanded band 3625 to 4000 kilocycles extended to amateur stations within the Territories of Alaska and Puerto Rico, and in the Virgin Islands; and

Whereas two minor changes in frequency bands previously made available are considered advisable;

It is hereby ordered, That the second ordering clause of Order No. 130-A, as amended by Orders Nos. 130-B, 130-C and 130-D, be and it is hereby further amended to read as follows:

2. (a) The following frequency bands are available for use for amateur station operation, subject to the limitations and restrictions set forth herein:

(1) 3625 to 4000 Kc., using type A1 emission, and, on frequencies 3900 to 4000 Kc., type A3 emission, subject to the restriction that A3 emission may be used only by an amateur station which is licensed to an amateur operator holding Class A privileges and then only when operated and controlled by an amateur operator holding Class A privileges. This band may be used for amateur station operation on and after, but not before, April 1, 1946, 3:00 a. m. Eastern Standard Time. Use of this band is restricted to amateur stations within the continental limits of the United States, the Territories of Alaska and Puerto Rico, and the Virgin Islands.

(2) 27.185 to 27.455 Mc., using types A0, A1, A2, A3 and A4 emissions, and also special emissions for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques). This band is subject to use also for operation of scientific, industrial and medical apparatus.

(3) 28.0 to 29.7 Mc., using type A1 emission.

(4) 28.1 to 29.7 Mc., using type A3 emission.

(5) 29.0 to 29.7 Mc., using special emission for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques).

(6) 50.0 to 54.0 Mc., using types A1, A2, A3 and A4 emissions and, on frequencies 52.5 to 54.0 Mcs., special emission for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques).

(7) 144 to 148 Mc., using types A1, A2, A3 and A4 emissions and special emissions for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques). The portion of this band between 146.5 and 148 Mc. shall not be used, however, by any amateur station located within 50 miles of Washington, D. C., Seattle, Washington, or Honolulu, T. H.

(8) 235 to 240 Mc., using types A1, A2, A3 and A4 emissions and special emissions for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques).

(9) 420 to 430 Mc., 1215 to 1295 Mc., 2300 to 2450 Mc., 5250 to 5650 Mc., 10,000 to 10,500 Mc., and 21,000 to 22,000 Mc., using on these six bands, types A1, A2, A3, A4 and A5 emissions and special emissions for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques). Peak antenna power on the band 420 to 430 Mc. shall not exceed 50 watts.

(b) No frequencies other than those assigned in this order shall be used for amateur operation.

This order shall become effective immediately.

By the Commission.

## GLOBE WIRELESS LTD.

## NOTICE OF HEARING

In re application of Globe Wireless Ltd., dated August 30, 1945, for modification of license to include Havana, Cuba as an authorized point of communication: class of service, fixed public; class of station, point-to-point telegraph; location, Woodcliff Lake, New Jersey; Docket No. 7491, File No. T1-SA-406.

You are hereby notified that the Commission having examined the above described application, and being unable to determine upon examination of such application that public interest, convenience or necessity would be served by the granting thereof, has designated the matter for hearing for the following reasons:

1. To determine the extent to which applicant's authorized frequencies and facilities will be used for operating the proposed circuit and whether such use is the most desirable use of these frequencies and facilities for providing the United States public with rapid and efficient communication service.

2. To determine the nature and capacity of existing telegraph communication facilities between New York, N. Y., and Havana, Cuba, and the capacity, transmission qualities and scheduled hours of operation of the circuit proposed in the above application.

3. To determine the efficiency of operation of the proposed circuit, as compared with the efficiency of operation of existing facilities for telegraph communication service between the United States and Cuba.

4. To determine whether there is a public need for additional telegraph communication facilities between New York, N. Y., and Havana, Cuba.

5. To determine the nature of any contracts, agreements or understandings between the applicant and any other carrier for the operation of the proposed circuit.

6. To determine the nature of service to be rendered by applicant over the proposed circuit, including the classes of service to be offered, the charges to be made for each such class and the division of such charges.

7. To determine the extent to which the general public in the United States would make use of service over the proposed circuit and whether applicant proposes to enter into any agreements for service to any particular user or users which would limit general public use of the proposed circuit.

8. To determine the effect of a contract of January 2, 1946 between applicant on the one hand and the Robert Dollar Company and the International Business Machines Corporation, on the other hand, on the control of the applicant, and on its ability to render foreign telegraph service in the public interest.

9. To determine the financial qualifications of the applicant to establish and operate the proposed circuit in the public interest.

10. To determine any other relevant facts which would indicate whether or not a grant of the above application

would serve public interest, convenience or necessity.

The applicant is hereby given an opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.384 (a) of the Commission's rules and regulations. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's rules and regulations.

The applicant's address is as follows: Globe Wireless Ltd., 311 California Street, San Francisco, California.

Dated at Washington, D. C., March 27, 1946.

tached hereto and by reference made a part hereof, was a person within the designated enemy country or enemy-occupied territory appearing opposite such person's respective name in Column 2 of said Exhibit A;

Having determined that it was in the interest of the United States to take measures in connection with representing each of said persons in the court or administrative action or proceeding identified in Column 3 of said Exhibit A, and having taken such measures;

Finding that as a result of such action or proceeding each of said persons obtained or was determined to have an interest in property, which interest is particularly described in Column 4 of said Exhibit A;

Finding that such property is in the possession, custody or control of the person described in Column 5 of said Exhibit A; and

Finding that the Alien Property Custodian has incurred, in each of such court or administrative actions or proceedings,

costs and expenses in the amount stated in Column 6 of said Exhibit A.

hereby vests in the Alien Property Custodian, to be used or otherwise dealt with in the interest, and for the benefit, of the United States, from the property in the possession, custody, or control of the persons described in said Column 5 of said Exhibit A, the sums stated in said Column 6 of said Exhibit A, such sums being the amounts of such property equal to the costs and expenses in-

curred by the Alien Property Custodian in such actions or proceedings.

This order shall not be deemed to limit the powers of the Alien Property Custodian to return such property if and when it should be determined that such return should be made.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form

APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on April 1, 1946.

## COSTS AND EXPENSES INCURRED IN CERTAIN ACTIONS OR PROCEEDINGS IN CERTAIN MICHIGAN, INDIANA, MISSOURI AND WISCONSIN COURTS

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the Alien Property Custodian:

Having found that each of the persons named in Column 1 of Exhibit A, attached hereto and by reference made a part hereof, was a person within the designated enemy country or enemy-occupied territory appearing opposite such person's respective name in Column 2 of said Exhibit A:

Having determined that it was in the interest of the United States to take measures in connection with representing each of said persons in the court or

administrative action or proceeding identified in Column 3 of said Exhibit A, and having taken such measures;

Finding that the Alien Property Custodian has incurred, in each of such court or administrative actions or proceedings, costs and expenses in the amount stated in Column 4 of said Exhibit A,

hereby vests in the Alien Property Custodian, to be used or otherwise dealt with in the interest, and for the benefit, of the United States, from the property which each of the persons named in said Column 1 of said Exhibit A obtains or is determined to have as a result of the action or proceeding described in said Column 3 of said Exhibit A the sums stated in said Column 4 of said Exhibit A, such sums being the amounts of such property equal to the costs and expenses incurred by the Alien Property Custodian in such actions or proceedings.

This order shall not be deemed to limit the powers of the Alien Property Custodian to return such property if and when it should be determined that such return should be made.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

**COSTS AND EXPENSES INCURRED IN CERTAIN ACTIONS OR PROCEEDINGS IN CERTAIN IOWA, SOUTH DAKOTA AND MINNESOTA COURTS**

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the Alien Property Custodian:

Having found that each of the persons named in Column 1 of Exhibit A, attached

hereto and by reference made a part hereof, was a person within the designated enemy country or enemy-occupied territory appearing opposite such person's respective name in Column 2 of said Exhibit A;

Having determined that it was in the interest of the United States to take measures in connection with representing each of said persons in the court or administrative action or proceeding identified in Column 3 of said Exhibit A, and having taken such measures;

Finding that as a result of such action or proceeding each of said persons obtained or was determined to have an interest in property, which interest is particularly described in Column 4 of said Exhibit A;

Finding that such property is in the possession, custody or control of the person described in Column 5 of said Exhibit A; and

Finding that the Alien Property Custodian has incurred, in each of such court or administrative actions or proceedings,

costs and expenses in the amount stated in Column 6 of said Exhibit A,

hereby vests in the Alien Property Custodian, to be used or otherwise dealt with in the interest, and for the benefit, of the United States, from the property in the possession, custody, or control of the persons described in said Column 5 of said Exhibit A, the sums stated in said Column 6 of said Exhibit A, such sums being the amounts of such property equal to the costs and expenses incurred by the

Alien Property Custodian in such actions or proceedings.

This order shall not be deemed to limit the powers of the Alien Property Custodian to return such property if and when it should be determined that such return should be made.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon,

on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on April 1, 1946.

#### COSTS AND EXPENSES INCURRED IN CERTAIN ACTIONS OR PROCEEDINGS IN CERTAIN MICHIGAN, MINNESOTA, WISCONSIN AND OHIO COURTS

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the Alien Property Custodian:

Having found that each of the persons named in Column 1 of Exhibit A, attached hereto and by reference made a part hereof, was a person within the designated enemy country or enemy-occupied territory appearing opposite such person's respective name in Column 2 of said Exhibit A;

Having determined that it was in the interest of the United States to take measures in connection with represent-

ing each of said persons in the court or administrative action or proceeding identified in Column 3 of said Exhibit A, and having taken such measures;

Finding that as a result of such action or proceeding each of said persons obtained or was determined to have an interest in property, which interest is particularly described in Column 4 of said Exhibit A;

Finding that such property is in the possession, custody or control of the person described in Column 5 of said Exhibit A; and

Finding that the Alien Property Custodian has incurred, in each of such court or administrative actions or proceedings, costs and expenses in the amount stated in Column 6 of said Exhibit A,

hereby vests in the Alien Property Custodian, to be used or otherwise dealt

with in the interest, and for the benefit, of the United States, from the property in the possession, custody, or control of the persons described in said Column 5 of said Exhibit A, the sums stated in said Column 6 of said Exhibit A, such sums being the amounts of such property equal to the costs and expenses incurred by the Alien Property Custodian in such actions or proceedings.

This order shall not be deemed to limit the powers of the Alien Property Custodian to return such property if and when it should be determined that such return should be made.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form

APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on April 1, 1946.

## [Vesting Order P 11]

## GIICHI YASUGAMI AND SAKAE YASUGAMI

In re: Real property owned by Giichi Yasugami and Sakae Yasugami.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Giichi Yasugami and Sakae Yasugami, subjects of Japan, whose present whereabouts are unknown and who are believed to be residents of Japan, are nationals of a designated enemy country (Japan);

2. That the property described as follows: Real property situated in the District of Santa Ana, City of Manila, Commonwealth of the Philippines, therein registered and particularly described in Exhibits A to E, inclusive, attached hereto and by reference made a part hereof, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments arising from the ownership of such property,

is property within the United States owned or controlled by, payable or de-

liverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country;

And determining that to the extent that such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Japan);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described in subparagraph 2 hereof, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Prop-

erty Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall this order be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC-1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on February 12, 1946.

[SO 142, Order 71]

A. L. SMITH IRON Co.

#### ADJUSTMENT OF MAXIMUM PRICES

Order No. 71 under Supplementary Order No. 142. Adjustment provisions for sales of industrial machinery and equipment and specified mechanical building equipment. A. L. Smith Iron Company. Docket No. 6083-S. O. 142-136-201.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 2 of Supplementary Order No. 142 and to section 16 of Maximum Price Regulation No. 591, *It is ordered:*

(a) The maximum prices for sales by A. L. Smith Iron Company, Chelsea, Massachusetts, of its line of fluorescent fixtures shall be determined by increasing by 4.9% the maximum prices in effect for these products just prior to the issuance of this order.

(b) The maximum prices for sales by resellers of the products described in paragraph (a) above shall be determined as follows: The reseller shall increase the maximum net prices he had in effect to a purchaser of the same class, just prior to the issuance of this order, by the same percentage by which his net invoiced cost has been increased by reason of this order.

(c) The A. L. Smith Iron Company shall notify each purchaser, who buys the products listed in paragraph (a) above for resale of the percentage by which this order permits the reseller to increase his maximum net prices. A copy of each such notice shall be filed with the Machinery Branch, Office of Price Administration, Washington, D. C.

(d) All requests not granted herein are denied.

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective April 5, 1946.

Issued this 4th day of April 1946.

#### ESTABLISHMENT OF MAXIMUM PRICES

For the reasons set forth in an accompanying opinion, and in accordance with § 1340.210 (a) (6) of Maximum Price Regulation No. 120; *It is ordered:*

Producers identified herein operate named mines assigned the mine index numbers, the price classifications and the maximum prices in cents per net ton for the indicated uses and shipments as set forth herein. All are in District No. 13. The mine index numbers and the price classifications assigned are permanent but the maximum prices may be changed by an amendment issued after the effective date of this order. Where such an amendment is issued for the district in which the mines involved herein are located and where the amendment makes no particular reference to a mine or mines involved herein, the prices shall be the prices set forth in such amendment for the price classifications of the respective size groups. The location of each mine is given by county and state. The maximum prices stated to be for truck shipment are in cents per net ton f. o. b. the mine or preparation plant and when stated to be for rail shipment or for railroad fuel are in cents per net ton f. o. b. rail shipping point. In cases where mines ship coals by river the prices for such shipments are those established for rail shipment and are in cents per net ton f. o. b. river shipping point. However, producer is subject to the provisions of § 1340.224 and all other provisions of Maximum Price Regulation No. 120.

U. C. MURCELL, INC.

#### ESTABLISHMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion, issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 9, 10 and 11 (c) of Revised Maximum Price Regulation 136, It is ordered:

(a) U. C. Murcell, Inc., 5400 Santa Fe Avenue, Los Angeles, California, may sell,

f. o. b. plant, each Murcell Universal trailer, described in subparagraph (1) below at a price not to exceed \$184.40 plus federal excise tax, state and local taxes on the sale or delivery of the trailer and the cost of transporting it to the purchaser, if any.

(1) Description. Model 1001-A, MUT, two wheel utility trailer; 1 ton capacity; all steel, all welded frame and body; body dimensions 54" wide x 84" long; equipped with 6.00 x 16, 4 ply synthetic rubber tires and tubes and extension draw-bar.

(b) U. C. Murcell, Inc. is authorized to suggest to resellers a resale price for the trailer described in paragraph (a) (1) consisting of the following:

(1) Price to dealers. \$204.88.

(2) Price to consumers. \$273.17.

(3) Charges. (i) A charge for transportation, if any, not to exceed the actual freight charge from the factory at Los Angeles, California, to the railroad freight receiving station nearest to the place of business of the reseller.

(ii) A charge equal to the charge made by U. C. Murcell, Inc. to cover federal excise taxes.

(iii) A charge equal to reseller's expense for payment of state and local taxes on the purchase, sale or delivery of the trailers.

(c) A reseller of Murcell trailers in any of the territories or possessions of the United States is authorized to sell the trailer described in paragraph (a), at a price not to exceed the applicable price established in paragraph (b), to which it may add a sum equal to the expense incurred by or charged to it for payment of territorial and insular taxes, on the purchase, sale or introduction of the trailer; export premiums; boxing and crating for export purposes; marine and war risk insurance; and landing, wharfage and terminal operations.

(d) U. C. Murcell, Inc. shall furnish to the Automotive Branch, Office of Price Administration, Washington, D. C., not later than September 30, 1946 detailed unit costs based on actual production during March, April, May, June, July and August 1946. These unit costs, however, shall be computed in accordance with section 10 of Revised Maximum Price Regulation 136 in order to be on a comparable basis to those used for this price determination.

(e) All requests not granted herein are denied.

(f) This order may be amended or revoked by the Administrator at any time.

NOTE: Where the manufacturer's invoice charge to the reseller is increased or decreased from the previous invoice charge because the manufacturer has a newly established price under section 8 of Revised Maximum Price Regulation 136, due to substantial changes in design, specifications or equipment of the trailer, the reseller may add to its price under paragraph (b) the increase in price, plus its customary markup on such a cost increase, but in case of a decrease in the price, the reseller must reduce its price under paragraph (b) by the amount of the decrease and its customary markup on such an amount.

This order shall become effective April 5, 1946.

Issued this 4th day of April 1946.

Coaches and Sedans (complete sets) ..	20.7

(b) *Maximum prices of purchasers for resale.* Purchasers for resale of such articles, which the manufacturer has sold at adjusted maximum prices, shall determine their maximum resale prices in the manner set forth below in this paragraph (b); and the provisions of Supplementary Order No. 153 shall not apply to resales of articles covered by this order.

(1) A purchaser for resale who delivered or offered for delivery during March 1942 any article which meets the definition of "most comparable commodity" contained in § 1499.3 (a) of the General Maximum Price Regulations except that it need not be currently offered for sale, shall determine his maximum resale price by adding to his invoice cost the same markup which he had on that comparable article, according to the method and procedure set forth in that section.

The determination of a maximum resale price in this way need not be reported to the Office of Price Administration. However, each seller must keep complete records showing all the information called for on OPA Form 620-759, with regard to how he determined his maximum resale price, for inspection by the Office of Price Administration, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(2) If a purchaser for resale cannot determine his maximum resale price under the above method, he shall apply to the Office of Price Administration for the establishment of his maximum resale price under § 1499.3 (c) of the General Maximum Price Regulation. Maximum resale prices established under that section will reflect the supplier's prices adjusted in accordance with this order.

(c) *Terms of sale.* Maximum prices adjusted by this order are subject to each seller's terms, discounts, allowances, and other price differentials, in effect during March, 1942, or which have been properly established under the applicable OPA regulation.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale, showing a price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the methods established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles covered by this order. This notice may be given in any convenient form.

(e) *Revocation or amendment.* This order may be revoked or amended by the Price Administrator at any time.

(f) *Effective date.* This order shall become effective on the 4th day of April 1946.

Issued this 4th day of April 1946.

R & R TOOL AND DIE WORKS  
APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188; It is ordered:

(a) This order establishes maximum prices for sales and deliveries of certain articles manufactured by R & R Tool and Die Works, 324 Lafayette Street, New York, N. Y.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Article	Model No.	Maximum prices for sales by any seller to—			
		Jobbers	Chain and department stores	Other retailers	Consumers
Aluminum food chopper with open body feature and return channel for juice and bracket.....	G22	Each \$2.98	Each \$3.57	Each \$3.97	Each \$5.95

These maximum prices are for the articles described in the manufacturer's application dated January 26, 1946.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. These prices are f. o. b. factory and subject to a cash discount of 2% for payment in 10 days, net 30 days.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and

conditions of sale, he must apply to the Office of Price Administration, under the Fourth Pricing Method, § 1499.158 of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement:

Model No. -----  
OPA Retail Ceiling Price—\$-----  
Do Not Detach or Obliterate

(c) At the time of, or prior to, the first invoice to each purchaser for resale at wholesale, the manufacturer shall notify the purchaser in writing of the maximum prices and conditions established by this order for sales by the purchaser. This notice may be given in any convenient form.

(d) This order may be revoked or amended by the Price Administrator at any time.

(e) This order shall become effective on the 5th day of April 1946.

Issued this 4th day of April 1946.

JAMES G. ROGERS, Jr.,  
Acting Administrator.

MOSHANNON FALLS MINING CO. ET AL.  
ESTABLISHMENT OF MAXIMUM PRICES AND  
PRICE CLASSIFICATIONS

For the reasons set forth in an accompanying opinion, and in accordance with § 1340.210 (a) (6) of Maximum Price Regulation No. 120; It is ordered:

Producers identified herein operate named mines assigned the mine index numbers, the price classifications and the maximum prices in cents per net ton for the indicated uses and shipments as set forth herein. All are in District No. 1. The mine index numbers and the price classifications assigned are permanent but the maximum prices may be changed by an amendment issued after the effective date of this order. Where such an amendment is issued for the district in which the mines involved herein are located and where the amendment makes no particular reference to a mine or mines involved herein, the prices shall be the prices set forth in such amendment for the price classifications of the respective size groups. The location of each mine is given by county and state. The maximum prices stated to be for truck shipment are in cents per net ton f. o. b. the mine or preparation plant and when stated to be for rail shipment or for railroad locomotive fuel are in cents per net ton f. o. b. rail shipping point. In cases where mines ship coals by river the prices for such shipments are those established for rail shipment and are in cents per net ton f. o. b. river shipping point. However, producer is subject to the provisions of § 1340.212 and all other provisions of Maximum Price Regulation No. 120.

## EASTERN METAL PRODUCTS

## APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188; *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of certain articles manufactured by Eastern Metal Products, 8 Depot Square, Tuckahoe 7, N. Y.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Article	Model No.	Maximum prices for sales by any seller to—			
		Chains, mail order houses and jobbers	Department stores	Other retailers	Consumers
Lime squeezer.....	1005	Each \$0.50	Each \$0.57	Each \$0.67	Each \$1.00

These maximum prices are for the articles described in the manufacturer's application dated February 12, 1946.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. These prices are f. o. b. factory and subject to a cash discount of 2% for payment in 10 days, net 30 days.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, under the Fourth Pricing Method, § 1499.158 of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement:

Model No. ....  
OPA Retail Ceiling Price—\$.....  
Do Not Detach or Obliterate

(c) At the time of, or prior to, the first invoice to each purchaser for resale at wholesale, the manufacturer shall notify the purchaser in writing of the maximum prices and conditions established by this order for sales by the purchaser. This notice may be given in any convenient form.

(d) This order may be revoked or amended by the Price Administrator at any time.

(e) This order shall become effective on the 5th day of April 1946.

Issued this 4th day of April 1946.

SPEAKMAN CO.

#### ADJUSTMENT OF MAXIMUM PRICES

Order No. 410 under section 16 of Maximum Price Regulation No. 591. Special No. 68—12

fied mechanical building equipment, Docket No. 6123-SO 133-1. Adjustment of maximum prices for sales of brass plumbing fixture trim manufactured by the Speakman Company of Wilmington, Delaware.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 16 of Maximum Price Regulation No. 591, it is ordered:

(a) Adjustment of maximum prices for the Speakman Company of Wilmington, Delaware. (1) The Speakman Company may increase its properly established maximum prices for its line of plumbing fixture trim in effect during March, 1942, to each class of purchaser by 8.0 percent.

(2) The Speakman Company shall continue to extend discounts and allowances, including transportation allowances, and to render services which are at least as favorable as those which the Speakman Company extended or rendered or would have extended or rendered to purchasers of the same class on sales of comparable quantities of those products during March 1942.

(b) Maximum prices for resellers. The maximum prices for sales by a reseller of any of the commodities for which adjustment is granted the Speakman Company under this order shall be his maximum price to each class of purchaser in effect during March 1942, plus the actual dollars-and-cents increase in present acquisition costs resulting from the adjustment granted the Speakman Company of Wilmington, Delaware under this order.

(c) Notification to all purchasers. The Speakman Company of Wilmington, Delaware shall send the following notice to every purchaser of the commodities covered by this order at or before the time of the first billing after the adjustment granted by this order is put into effect:

Order No. 410 under section 16 of Maximum Price Regulation No. 591 provides for increases in net prices for sales of brass plumbing fixture trim manufactured by the Speakman Company. Resellers may add the actual dollars-and-cents increase in their acquisition cost resulting from the adjustment granted the manufacturer, to their existing maximum prices.

(d) All prayers of the application of the Speakman Company not granted in this order are denied.

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective April 5, 1946.

Issued this 4th day of April 1946.

JAMES G. ROGERS, Jr.,  
Acting Administrator.

[Rev. SO 119, Order 144]

ELECTROMASTER, INC.

#### ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) Electromaster, Inc., 1803 East Atwater Street, Detroit 31, Michigan, may increase by no more than 10.1 percent its highest prices charged during October 1941 to each class of purchaser for the electric cooking ranges of its manufacture.

(b) For sales in each zone by wholesale distributors to retail dealers the ceiling prices for the models of electric ranges manufactured by Electromaster, Inc. and listed below are as follows:

Model	Quantity	Ceiling prices for sales to retail dealers			
		Zone 1	Zone 2	Zone 3	Zone 4
15-1	1 to 4	Each \$119.56	Each \$121.59	Each \$123.31	Each \$125.34
	5 or more	115.62	117.57	119.21	121.17
T-41-1	1 to 4	78.77	79.86	80.96	82.02
	5 or more	76.12	77.32	78.22	79.24

The ceiling prices include the Federal excise tax and are subject to terms, discounts, allowances, and other price differentials no less favorable than those the seller had in effect on sales of similar articles during March 1942. If a seller made no such sales during March 1942 the ceiling prices are subject to terms, discounts, allowances, and other price differentials no less favorable than those of his closest seller of the same class had in effect during the same period on sales of similar articles or which he thereafter properly established under applicable OPA regulations.

(c) For sales in each zone by retail dealers to ultimate consumers the ceiling prices for the models of electric ranges manufactured by Electromaster, Inc. and listed below are as follows:

Model	Ceiling prices for sales to ultimate consumers			
	Zone 1	Zone 2	Zone 3	Zone 4
15-1	Each \$178.75	Each \$181.95	Each \$184.75	Each \$187.95
T-41-1	118.50	120.95	121.95	123.75

These prices include the Federal excise tax, delivery, a one year warranty and installation with connection to electric facilities to be provided by the consumer where such connection does not require any additional materials. If a range cord set (customarily referred to in the industry as a "pigtail") is required and is furnished by the retail dealer, he may add \$3.50 to the above OPA retail ceiling price. In all other respects these ceiling prices are subject to terms, discounts, allowances, and other price differentials no less favorable than those the seller had in effect on sales of similar articles during March 1942. If a seller made no such sales during March 1942, the ceiling prices are subject to terms, discounts, allowances and other price differentials no less favorable than those his closest seller of the same class had in effect during the same period on sales of similar articles or which he thereafter properly established under applicable OPA regulations.

(d) For purposes of this order Zones 1, 2, 3, and 4 comprise the following states:

Zone 1. Michigan, Indiana, and Ohio.

Zone 2. Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Pennsylvania, Delaware, Maryland, District of Columbia, West Virginia, Virginia, North Carolina, South Carolina, Kentucky, Tennessee, Mississippi, Alabama, Georgia, Wisconsin, Illinois, Minnesota, Iowa, Missouri, and Arkansas.

Zone 3. North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas, Louisiana, Montana, Wyoming, Colorado, New Mexico, and Florida.

Zone 4. Idaho, Utah, Arizona, Nevada, Washington, Oregon, and California.

(e) At the time of, or prior to the first invoice to each purchaser for resale at wholesale the manufacturer shall notify him of the ceiling prices set by this order for resales by the purchaser. This notice may be given in any convenient form.

(f) The manufacturer prior to shipping any range covered by this order to a purchaser for resale shall attach securely to the outside panel of the oven door of each range a label which contains all the following information:

1. The model number of the range.
2. The range's OPA retail ceiling prices in each zone.
3. A list of the states included in each zone.
4. A statement that the ceiling prices shown include the Federal excise tax, delivery, a one year warranty and installation where the installation requires only that the range be connected to electric facilities to be provided by the purchaser and such connection does not require any additional materials.
5. A statement that if the installation requires the use of a range cord set (customarily referred to in the industry as a "pigtail") and such a set is furnished by the retail dealer, he may add \$3.50 to the OPA retail ceiling price of the range.

(g) The ceiling prices established by this order supersede those established by Order No. 197 under Maximum Price Regulation No. 64 with respect to articles sold by the manufacturer at prices adjusted under this order.

(h) This order may be revoked or amended by the Price Administrator at any time.

(i) This order shall become effective on the 4th day of April, 1946.

Issued this 4th day of April 1946.

JAMES G. ROGERS, Jr.,  
Acting Administrator.

#### CERTAIN WORN LEATHER FOOTWEAR SPECIAL MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and in accordance with section 11 of Supplementary Order 94, it is ordered:

(a) *What this order does.* This order establishes maximum prices for sales at retail of certain worn leather footwear hereinafter described, which has been or may be purchased from the War Assets Administration or any other United States Government Agency.

(b) *Maximum prices.* Maximum retail prices per pair for the worn leather footwear described herein shall be:

Description	Retail price
Worn men's shoes, including but not limited to Field shoes, Service shoes, Garrison shoes, High black shoes (Navy), Combat boots, Mechanic's shoes, Rigger & Aircraft shoes, Shoes for Foreign Armies, Canvas top shoes and Oxfords.....	\$3.00
Worn women's shoes, including but not limited to Nurse's black shoes, Nurse's white shoes, WAC Field shoes, and WAC Service shoes.....	\$4.00
Worn boots, including but not limited to Flying boots (fur or fleece lined), Logger boots, Lace boots (enlisted man's), Blucher high top boots, Parachute boots, Ski mountain boots, Ski mountain boots with rubber soles, Leather lace waterproof boots and Storm fleece lined boots....	5.50

The aforesaid prices do not apply to resales of leather footwear sold by the Government as "new rebuilt".

(c) *Notification.* Any person who sells the leather footwear described in paragraph (b) to a retailer shall furnish the retailer with an invoice of sale setting forth the maximum prices for sales at retail, and stating that the retailer is

required by this order to attach to each pair of shoes or boots before sale a tag or label which plainly states a selling price not in excess of the appropriate ceiling price.

(d) *Tagging.* Any person who sells the shoes or boots described in paragraph (b) at retail shall attach to each pair of shoes or boots before sale a tag or label which plainly states a selling price not in excess of the appropriate ceiling price.

(e) *Relation to other regulations and orders.* This order with respect to the commodities it covers supersedes any other regulation or order previously issued by the Office of Price Administration.

(f) *Definitions.* "Retailer" means any person who sells to ultimate consumers.

#### MILK IN MADISON, WIS.

For the reasons set forth in the accompanying opinion and under the authority vested in the Regional Administrator by § 1351.408 (f) of General Maximum Price Regulation, *It is hereby ordered:*

1. Paragraph (1) of Order G-1 (formerly Regional Order No. 48) under Maximum Price Regulation No. 329, is amended to read as follows:

(1) The maximum price which distributors within the Madison, Wisconsin

sin area may pay to producers for milk for resale as fluid milk shall be \$3.10 per cwt., f. o. b. purchaser's plant, for milk having a 3.5% butterfat content, plus not more than 4¢ per  $\frac{1}{10}$  of 1% of butterfat in excess of 3.5% and minus not less than 4¢ per  $\frac{1}{10}$  of 1% of butterfat below 3.5%; *Provided*, That an additional amount not to exceed 40¢ per cwt. may be paid for Guernsey milk containing more than 4.2% butterfat.

2. Paragraph (4) is amended to read as follows:

(4) *Definitions.*

(a) "Guernsey milk" means milk from Guernsey cows to be sold under the name "Guernsey milk" or a modification of such name, but including the word "Guernsey".

(b) Unless the context otherwise requires, the definitions used in Maximum Price Regulation No. 329 and the General Maximum Price Regulation shall apply to the terms herein.

3. Paragraph (5) shall be added as follows:

(5) *Addition of transportation charges.* (a) The maximum price established in Paragraph 1 is the maximum price for milk f. o. b. purchaser's plant. If the transportation charge or any part thereof is paid by the purchaser, the total amount paid for transportation, plus the amount received by the producer, shall not be in excess of the maximum price set forth in paragraph 1.

(b) If the purchaser hauls the milk to his plant in a conveyance owned, leased or operated by him, he shall deduct from the maximum price set forth in paragraph 1 of this order the cost of such transportation. The 'cost of such transportation' shall be the maximum price which may be charged by milk haulers or other transportation companies for the hauling of milk to the purchaser's plant.

This amendment may be revoked, amended or modified at any time.

Effective the 4th day of April 1946.

Issued this 4th day of April 1946.

FLUID MILK PRICES IN MADISON, WIS.

For reasons set forth in the accompanying opinion and under the authority vested in the Regional Administrator by § 1499.75 (a) (9) of Supplementary Regulation No. 15 to the General Maximum Price Regulation and § 1351.807 (b) (3) of Maximum Price Regulation No. 280, it is hereby ordered:

1. That the portion of Appendix A to Order G-9 (formerly Regional Order No. 13) issued under section 18 (c) of the General Maximum Price Regulation, which was added by Amendment 1 to such order, is amended by removing the word "Guernsey" from the heading.

2. That Appendix A to Order G-9 is amended by adding the following:

GUERNSEY MILK

[Butterfat content over 4.2%]

	Wholesale	Retail
Gallon.....	\$0.52	
Quart.....	.13 $\frac{1}{2}$	\$0.15
Pint.....	.07 $\frac{1}{2}$	.08 $\frac{1}{2}$
$\frac{1}{2}$ pint.....	.04	.05

3. That a new paragraph (2) is added to read as follows:

(2) Where the maximum price set forth in Appendix A is expressed in terms of  $\frac{1}{2}$ ¢, the price charged for a single unit at retail may be increased to the next even cent. An opportunity must, however, be given to each buyer to purchase two units for which the maximum price shall be twice the single unit price. All sales at wholesale and home delivery sales at retail shall be considered multiple unit sales unless separate collections are made for single units when delivered.

4. That paragraphs (2) and (5) of Order G-9 are renumbered (3) and (4) respectively.

5. That a new paragraph (5) is added as follows:

(5) "Guernsey milk" means milk from Guernsey cows sold under the name "Guernsey milk" or some modification of such name, but including the word "Guernsey."

This amendment may be revoked, amended or corrected at any time.

This amendment shall be effective April 4, 1946.

## SECURITIES AND EXCHANGE COMMISSION.

[File Nos. 70-1222, 31-541]

NORTH WEST UTILITIES CO. AND BEAR,  
STEARNS & CO.

### ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE AND GRANTING APPLICATIONS FOR EXEMPTION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 28th day of March A. D. 1946.

North West Utilities Company, a registered holding company, having filed a declaration and amendments thereto pursuant to section 12 (d) of the Public Utility Holding Company Act of 1935 and Rule U-44 thereunder and an application pursuant to Rule U-50 thereunder, with respect to the following:

(1) The sale by said company of its entire interest in Northwestern Public Service Company, a subsidiary public utility company, to Bear, Stearns & Co., investment bankers, such interest consisting of 52,150 shares of common stock without par value, constituting all of such stock outstanding, for a cash consideration of \$2,400,000 subject to certain adjustments to the closing date, and;

(2) Exemption of such sale of common stock from the competitive bidding provisions of Rule U-50; and

(3) The use of the proceeds from such sale by said company to discharge its note indebtedness to The First National Bank of Chicago in the principal amount of \$1,000,000, the balance of such proceeds to be used for such other corporate purposes referred to in Supplement R of the Internal Revenue Code as it might subsequently ask the Commission by further order to approve; and

By amendment filed after completion of the record herein, North West Utilities Company having proposed to invest the balance of the proceeds from such sale remaining after discharging its said note indebtedness, but not in excess of \$1,500,000, as paid-in surplus of its subsidiary, Wisconsin Power and Light Company; and

Bear, Stearns & Co., a limited partnership organized and existing under the laws of the State of New York, having filed an application for exemption as a holding company pursuant to section 3 of the act, if and in the event that it acquires such common stock; and

North West Utilities Company having requested that the Commission's order conform to the requirements of section

1808 (f) and Supplement R of the Internal Revenue Code, as amended; and

The proceedings relating to the above described transactions having been consolidated, a public hearing having been held on such matters after appropriate notice, the Commission having considered the record, and having filed its findings and opinion herein:

It is ordered, That the aforesaid application and declaration of North West Utilities Company, as amended, be, and the same hereby are, granted and permitted to become effective, respectively, subject to the terms and conditions contained in Rule U-24.

It is further ordered, That the sale by North West Utilities Company to Bear, Stearns & Co. of its interest in Northwestern Public Service Company, consisting of 52,150 shares of common stock without par value, and the investment of the proceeds from such sale in retirement of its note indebtedness to The First National Bank of Chicago in the principal amount of \$1,000,000, and for such one or more of the purposes specified in Supplement R of the Internal Revenue Code as the Commission by further order may approve, are necessary and appropriate to the integration and simplification of the holding company system of which North West Utilities Company is a member, and are necessary and appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935, and that North West Utilities Company shall proceed forthwith to consummate the said sale and related transactions. It is a condition of this order that the aforesaid transactions shall be effected within sixty days from the date hereof.

It is further ordered, That jurisdiction is reserved over the proposal of North West Utilities Company to invest the balance of the proceeds of such sale remaining after payment of its said note indebtedness, but not in excess of \$1,500,000, as paid-in surplus of its subsidiary, Wisconsin Power and Light Company.

It is further ordered, That the application of Bear, Stearns & Co. for exemption from the provisions of the act, if and in the event that it acquires the said common stock of Northwestern Public Service Company, be, and hereby is, granted, pursuant to section 3 (a) (4) of the act, for a period of 12 months from the date of acquisition of such common stock, subject, however, to the condition that Bear, Stearns & Co. complies with the provisions of its stipulation filed herein.

By the Commission.

### ASSOCIATED GAS AND ELECTRIC CO. ET AL. ORDER RELEASING JURISDICTION OVER ACCOUNTING FEES

At a regular session of the Securities and Exchange Commission, held at its

office in the City of Philadelphia, Pa., on the 3d day of April 1946.

In the matter of Stanley Clarke, trustee of Associated Gas and Electric Company; Denis J. Driscoll and Willard L. Thorp, trustees of Associated Gas and Electric Corporation; Associated Electric Company, NY PA NJ Utilities Company, File No. 70-1147.

The Commission having by order dated December 28, 1945, granted applications and permitted to become effective declarations filed pursuant to sections 6 (a), 7, 9 (a), 10 and 12 of the Public Utility Holding Company Act of 1935 by Stanley Clarke, trustee of Associated Gas and Electric Company ("Ageco") and Denis J. Driscoll and Willard L. Thorp, trustees of Associated Gas and Electric Corporation ("Agecorp"), and their subsidiaries, Associated Electric Company ("Aelec"), and NY PA NJ Utilities Company ("NY PA NJ"), with respect to transactions involved in carrying into effect the settlement of various claims of Aelec, for itself and its subsidiaries, against its parent companies, Ageco and Agecorp; and having by said order reserved jurisdiction with respect to, among other things, fees and expenses of Aelec in connection with the proposed transactions; and

Aelec having filed statements with respect to accounting services rendered by Peat, Marwick, Mitchell & Company in connection with the transactions, and it appearing to the Commission that the fee of such company in the amount of \$10,000 is not unreasonable, and that jurisdiction over such fee should be released;

It is ordered, That jurisdiction heretofore reserved over the payment of the accounting fees of Peat, Marwick, Mitchell & Company in connection with the above transactions be, and hereby is, released.

By the Commission.

### MIDDLE WEST CORP.

### ORDER MODIFYING PREVIOUS ORDER AND PERMITTING POST-EFFECTIVE AMENDMENT TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 2d day of April A. D. 1946.

The Middle West Corporation, a registered holding company, having filed a declaration and application, and amendments thereto, under section 12 (d) of the Public Utility Holding Company Act of 1935 and Rule U-44 thereunder regarding a sale by it, in accordance with the competitive bidding requirements of Rule U-50, of 167,956½ shares of common stock of Midland Realization Company; and

The Commission having by order dated February 12, 1946 (Holding Company Act Release No. 6406), granted the application and permitted the declaration to become effective, subject to conditions set

forth in said order and to the terms and conditions prescribed by Rule U-24; and

The Middle West Corporation having filed a post-effective amendment to the said application and declaration on April 2, 1946, proposing to reduce from 167,956½ to 84,000 the number of shares of common stock of Midland Realization Company to be sold by The Middle West Corporation at this time and, to that extent, requesting a modification of said order of February 12, 1946; and

The Commission having considered such post-effective amendment and deeming it appropriate to permit it to become effective;

*It is hereby ordered*, That said order of February 12, 1946 herein, be, and hereby is, modified so as to reduce the number of shares of common stock of Midland Realization Company to be sold at this time by The Middle West Corporation from 167,956½ to 84,000, subject to all the conditions set forth in said order of February 12, 1946 and prescribed by Rule U-24, and without in any manner extending or otherwise modifying the time within which The Middle West Corporation is now required to dispose of all its interest in Midland Realization Company as provided in the Commission's order dated October 24, 1944 (Holding Company Act Release No. 5317-A);

*It is further ordered*, That jurisdiction be, and hereby is, reserved with respect to the sale or other disposition of the remaining 83,956½ shares of common stock of Midland Realization Company;

*It is further ordered*, That jurisdiction is hereby reserved over all fees and expenses to be incurred in connection with the proposed transaction.

NOTICE OF AND ORDER FOR ARGUMENT BEFORE  
THE COMMISSION ON MOTION TO DISMISS

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 3d day of April A. D. 1946.

In the matter of Hugh B. Baker, (American Cities Power & Light Corporation); File No. 812-374.

Hugh B. Baker having filed an application for an order either declaring that the Investment Company Act of 1940 is not applicable to, and the Commission has no jurisdiction over, the exercise of an option granted to him on April 2, 1940, by American Cities Power & Light Corporation, a registered investment company, to purchase 50,000 shares of the common stock of Blue Ridge Corporation, a registered investment company, held in its portfolio or exempting under the provisions of sections 6 (c) and 17 (b) of the act, the exercise of the option from the provisions of section 17 (a) (2) thereof;

Counsel for the Corporation Finance Division of the Commission having moved the Commission to dismiss said application upon the ground that the Commission lacks jurisdiction to consider the application because the option was exercised prior to the filing of said application in violation of section 17 (a) (2) of said act.

*It is ordered*, Pursuant to section 40 (a) of said act, that argument on the afore-

said motion be held on April 23, 1946, at 12:00 o'clock noon, Eastern Standard Time, in Room 1014 of the Securities and Exchange Commission Building, 18th and Locust Streets, Philadelphia, Pa.;

It is further ordered, That the brief for counsel for the Corporation Finance Division of the Commission in support of its motion to dismiss be filed on or before April 5, 1946, and that reply briefs be filed on or before April 16, 1946.

Notice of such argument is hereby given to the applicant and to any other persons whose participation in such proceedings may be in the public interest or for the protection of investors.

In the matters of Hugh M. Morris, trustee of the estate of Midland United Company; Clarence A. Southerland and Jay Samuel Hartt, trustees of the estate of Midland Utilities Company, File No. 52-24; The Middle West Corporation, File No. 70-1258.

Hugh M. Morris, trustee of Midland United Company ("United"), a registered holding company, and Clarence A. Southerland and Jay Samuel Hartt, trustees of Midland Utilities Company ("Utilities"), a registered holding company, having heretofore jointly filed an application pursuant to section 11 (f) of the Public Utility Holding Company Act of 1935 ("act"), for approval of a modified plan for the reorganization of said companies under said section of the act and section 77B of the Bankruptcy Act; and

The Commission having entered its findings and opinions and orders approving such modified plan; and

The modified plan having been approved by the United States District Court for the District of Delaware, accepted by the requisite percentages of the holders of allowed claims and stock interests, confirmed by said court, and consummated; and

It appearing that, in consummating such modified plan, the name of Midland United Company was changed to Midland Realization Company ("Realization"); and

Said modified plan having provided, among other things, that within one year after the date of its confirmation, April 7, 1945, or within 90 days after certain obligations of Realization to certain secured creditors shall have been reduced to \$1,500,000 or less, whichever occurs

sooner, Realization and Utilities shall present a plan for their merger to this Commission for its approval, the court retaining jurisdiction to require the filing of such merger plan with this Commission and, upon its approval by this Commission, to require the execution and consummation of said merger plan; and

It further appearing that the said modified plan further provided that the purpose and policy of Utilities, as reorganized, and of the company surviving the merger of Realization and Utilities, was to liquidate its assets expeditiously, but without undue sacrifice of values, and to distribute its assets among the holders of its stock, and that the policy of Utilities and of the company surviving the merger of Realization and Utilities was to make no new investments or to engage in no business activities except for the purpose of effecting or facilitating such liquidation and distribution:

Notice is hereby given that a post-effective amendment to said modified plan of reorganization has been filed with this Commission pursuant to the provisions of section 11 (f) of the act and section 222 of the Bankruptcy Act, as amended. All interested persons are referred to said post-effective amendment, which is on file in the offices of this Commission, for a statement of the transactions proposed therein, which may be summarized as follows:

Applicants state that the post-effective amendment to the modified plan eliminates the requirement of a merger as an intermediate step in the liquidation of Realization and Utilities, that it substitutes in lieu thereof a plan for the direct and immediate liquidation of the two companies, and that its effect will be to do promptly and in one step what the modified plan requires to be done in two steps. Applicants further state that the amendment will neither materially nor adversely affect the interest of creditors or stockholders. The steps to be undertaken are as follows:

1. Utilities has outstanding 1,500,000 shares of capital stock. It is the owner of 2,154,395 shares, or 98.6%, of the no par value common stock of Northern Indiana Public Service Company ("Northern Indiana"), of promissory notes in the principal amount of \$2,739,000, plus accrued interest thereon, of Indiana Service Corporation ("Indiana Service"), and of a 2% obligation of Realization in the principal amount of \$2,500,000. Utilities will declare and distribute, as a liquidating dividend to its own stockholders, 1.4 shares of the common stock of Northern Indiana for each share held of the capital stock of Utilities. As a result, 840,000 shares of the common stock of Northern Indiana will be distributed to the public, 1,260,000 shares will be distributed to Realization as the holder of 60% of the capital stock of Utilities, and the balance of 54,395 shares of such stock will be retained by Utilities and, subsequently, will be offered for public sale.

2. Realization has outstanding 618,707 shares of capital stock. It is indebted to secured creditors in the principal amount

of \$1,517,000, and to Utilities in the principal amount of \$2,500,000. Under the terms of the indebtedness to such secured creditors, Realization may not make any capital distribution prior to the payment of such indebtedness in full. It will, therefore, borrow on a short-term basis, at current rates of interest, the approximate amount of \$1,350,000, which, together with its other available cash resources, will enable it to liquidate its indebtedness to the secured creditors.

3. As indicated above, Realization will have received as a dividend upon the 900,000 shares of capital stock of Utilities owned by it, 1,260,000 shares of the common stock of Northern Indiana. Realization will declare, as a liquidating dividend to its own stockholders, 1.75 share of the common stock of Northern Indiana for each share held of the capital stock of Realization, or a total of 1,082,737 1/4 shares. The balance of 177,262 3/4 shares of such stock will be retained by Realization, and will be offered for public sale simultaneously with the public offering of similar shares by Utilities.

4. The proceeds from the sale of such shares of common stock of Northern Indiana will thereupon be used by Realization (a) to retire the short-term loan in the approximate amount of \$1,350,000, and then (b) to pay to Utilities the sum of \$1,000,000, being the 40% of the principal amount of \$2,500,000 due Utilities by Realization, which would not inure to Realization as the holder of 60% of the capital stock of Utilities.

5. Proceedings are presently pending before this Commission whereby Utilities is seeking to reduce to cash its investment in the notes of Indiana Service. Applicants state that, although the outcome of such proceedings cannot be predicted, it shall be the continued policy of Utilities to liquidate such investment expeditiously, but without undue sacrifice of values. In the event that the investment of Utilities in Indiana Service shall not be liquidated by the time Realization pays Utilities \$1,000,000 in satisfaction of its indebtedness, as described above, or, in the opinion of the board of directors of Utilities, Utilities will not be liquidated in the immediate future. Realization will distribute, as a final liquidating dividend upon its capital stock, all of the shares of Utilities owned by it and all the cash or other assets remaining in its possession after making appropriate provisions for the costs of liquidation. Realization may, in its discretion, acquire sufficient shares of the capital stock of Utilities in the open market to enable Realization to make the distribution of the capital stock of Utilities in convenient fractions;

Notice is further given that an application or declaration (or both) has been filed, pursuant to the provisions of the act, with this Commission by The Middle West Corporation ("Middle West"), a registered holding company. All interested persons are referred to said application or declaration (or both), which is on file in the offices of the Commission, for a statement of the purpose and nature of the proposed transactions, which may be summarized as follows:

Middle West presently holds 167,956.5 shares of the capital stock of Realization. It requests the approval of this Commission to permit it to acquire from time to time, pursuant to the said post-effective amendment to the plan, such shares of the common stock of Northern Indiana, such shares of the capital stock of Utilities, and such other securities as may be declared, and distributed from time to time by Realization in respect of the shares of stock of Realization then owned by Middle West.

It also requests the approval of this Commission to permit it to sell from time to time, pursuant to the competitive bidding requirements of Rule U-50 to the extent applicable, all or any part of such shares of stock of Northern Indiana and Utilities and of such other securities as may be acquired by it from time to time pursuant to said post-effective amendment to the plan.

It appearing to the Commission that the proceeding with respect to the post-effective amendment to the modified plan of reorganization, designated as File No. 52-24, involves questions of law and fact common to the application or declaration (or both) filed by Middle West, designated as File No. 70-1258, and that evidence adduced in one proceeding may have a bearing upon the issues presented in the other proceeding; and that a substantial saving of time and expense will result if the proceedings are consolidated:

*It is hereby ordered*, That the proceeding with respect to the post-effective amendment to the modified plan of reorganization, designated as File No. 52-24, and the proceeding with respect to the application or declaration (or both) filed by Middle West, designated as File No. 70-1258, be, and hereby are, consolidated and that a hearing on such consolidated proceedings under the applicable provisions of the said act and rules and regulations promulgated thereunder be held on the 7th day of May, 1946, at 11:00 a. m., e. s. t., at the office of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room where such hearing will be held. Any persons desiring to be heard or otherwise wishing to participate therein shall notify the Commission to that effect in the manner provided in Rule XVII of the Commission's Rules of Practice on or before May 6, 1946.

*It is further ordered*, That Allen MacCullen or any other officer or officers of the Commission designated for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's rules of practice.

*It is further ordered*, That, without limiting the scope of the issues presented by said proceedings, particular attention will be directed at such hear-

ing to the following matters and questions:

1. Whether the transactions proposed in the post-effective amendment to the modified plan of reorganization are fair and equitable to all persons affected.

2. Whether the post-effective amendment to the modified plan of reorganization is feasible.

3. Whether the proposed acquisitions by Realization and Middle West have the tendency required by section 10 (c) (2) of the act.

4. Whether the various transactions proposed in connection with the post-effective amendment to the modified plan and in connection with the application or declaration (or both) filed by Middle West meet the requirements of the applicable sections of the act and the rules and regulations promulgated thereunder, and of the Bankruptcy Act, as amended.

5. The propriety of the proposed accounting treatment of the several transactions on the books of the respective applicants or declarants (or both).

6. Whether the fees, commissions, and other expenses to be incurred are for necessary services and reasonable in amount.

7. Generally, whether the proposed transactions comply with all the applicable provisions and requirements of the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder, and of the Bankruptcy Act, as amended, and, if not, whether and what modifications or terms and conditions should be required or imposed to satisfy the statutory standards.

*It is further ordered*, That notice of said hearing is hereby given to Realization, Utilities, Middle West, the Indiana Public Service Commission, and to all other interested persons, said notice to be given Realization, Utilities, Middle West, and the Indiana Public Service Commission by registered mail, and to all other persons by a general release of this Commission which shall be distributed to the press and mailed to all persons on the mailing list for releases issued under the Public Utility Holding Company Act of 1935 and by publication of this notice and order in the FEDERAL REGISTER.

*It is further ordered*, That Realization and Utilities give notice of said hearing to their respective stockholders of record (insofar as the identity of such stockholders is available or known) by mailing, postage prepaid, to each such security holder to his last known address a copy of this notice and order together with a copy of the post-effective amendment to the modified plan of reorganization at least twenty (20) days prior to the date of said hearing.

*It is further ordered*, That jurisdiction be, and is hereby, reserved to separate, either for hearing, in whole or in part, or for disposition, in whole or in part, any of the issues and questions which may arise in these proceedings, and to take such other action as may appear necessary or appropriate to the orderly and

economical disposition of the issues involved.

By the Commission.

AMERICAN GAS AND ELECTRIC CO., SCRANTON  
ELECTRIC CO.

#### NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 2d day of April A. D. 1946.

Notice is hereby given that a joint application-declaration has been filed with this Commission under the Public Utility Holding Company Act of 1935 by American Gas and Electric Company ("American") (a registered holding company and a subsidiary of Electric Bond and Share Company, also a registered holding company), and by American's subsidiary, The Scranton Electric Company ("Scranton"). All interested persons are referred to said application-declaration which is one file in the offices of the Commission for a statement of the transactions therein proposed, which may be summarized as follows:

Part I of the proposed transactions concerns a refinancing program by Scranton involving the issuance and sale of 58,500 shares of new —% cumulative preferred stock and the redemption of all of its presently outstanding \$6 preferred stock. Part II concerns the disposition by American of its investments in Scranton and in West Pittston-Exeter Railroad Company ("Railroad"), also a subsidiary of American, pursuant to an order of the Commission entered on December 26, 1945 (Holding Company Act Release No. 6333). Part II also provides that American, in compliance with said order of December 26, 1945, will cause Franklin Real Estate Company ("Real Estate"), a subsidiary of American which holds title to certain parcels of real estate for companies in the American System, to dispose of such of its assets as are related to the properties and business of Scranton.

*Part I.* (A) Scranton proposes to issue and sell at public sale, pursuant to the competitive bidding provisions of Rule U-50, 58,500 shares of —% cumulative preferred stock, par value \$100. The annual dividend rate (to be a multiple of  $\frac{1}{10}\%$  and not to exceed 4%) and the price, exclusive of accrued dividends, to be received by Scranton (to be not less than 100% and not more than 102 $\frac{3}{4}\%$  of the par value of the stock) are to be determined by competitive bidding.

(B) The proceeds of the sale, together with treasury funds to the extent necessary, will be used to redeem and cancel Scranton's presently outstanding

53,248 shares of \$6 preferred stock (including 3,326 shares of such stock owned by American) at the redemption price of \$110 per share plus accrued dividends thereon to date of redemption. In connection with the redemption program Scranton may obtain a one-day bank loan in an amount not in excess of \$5,900,000.

*Part II.* (A) American now owns 500 shares of the \$50 par value common stock of Railroad, being one-half of the outstanding shares of such common stock (the remaining shares being owned by Pennsylvania Realty and Investment Company, a subsidiary of Pennsylvania Power & Light Company, an associate company in the Electric Bond and Share Holding Company System), and is also the owner of a 6% interest bearing open account indebtedness of Railroad in the principal sum of \$260,221.83. American proposes to sell and Scranton proposes to acquire the 500 shares of common stock of Railroad for \$25,000 cash and American proposes to assign and transfer, and Scranton proposes to acquire, the said open account indebtedness for \$260,221.83 cash.

(B) Real Estate now holds title to approximately 400 acres of farm land located adjacent to the Stanton Generating Station of Scranton, an undivided one-half interest therein being held for the benefit of Scranton and the remaining interest being held for the benefit of Pennsylvania Realty and Investment Company. The title is recorded on the books of Real Estate at \$1 and the cost of one-half of such farm land is included among the assets on the books of Scranton, having been paid for by Scranton. American, the owner of all the capital stock of Real Estate, proposes, after the sale of the common stock of Scranton has been completed as hereinafter described, to cause Real Estate to sell and transfer its title to such lands to Scranton or its nominee for \$1.

(C) American now owns 2,500,000 shares of no par value common stock of Scranton, being all the authorized and issued common stock of Scranton, and proposes to cause Scranton to amend its charter so that its authorized capital stock will consist of 75,000 shares of cumulative preferred stock, par value \$100, of which 58,500 shares will be ---- % cumulative preferred stock, proposed to be issued as above described, and 1,500,000 shares of common stock of a par value of \$5 per share of which 1,214,000 shares are proposed to be issued and outstanding. The 2,500,000 shares of no par value common stock of Scranton owned by American will accordingly be changed and converted into 1,214,000 issued and outstanding shares of common stock of a par value of \$5 per share. American proposes to sell the said 1,214,000 shares of common stock at public sale, pursuant to the competitive bidding provision of Rule U-50.

(D) American proposes to cause American Gas and Electric Service Corporation ("Service Corporation"), a sub-

sidary service company presently rendering management, advisory, engineering and other similar services to Scranton pursuant to a written agreement dated August 1, 1939, to cease rendering such services as soon as practicable following the sale by American of its investments in Scranton and upon request of the new management of Scranton, and in any event not later than 3 months following the completion of the sale of such investments. The filing requests, however, that engineering and other services rendered Scranton by Service Corporation in connection with the construction of an addition to Scranton's suburban generating station, be permitted to continue until the addition is completed and placed in commercial operation about August 1, 1947.

American requests that the Commission issue its order reciting that the relevant transactions are necessary or appropriate to the integration or simplification of the American Holding Company System and necessary or appropriate to effectuate the provisions of subsection (b) of section 11 of the act, in accordance with the meaning and requirements of the Internal Revenue Code, as amended, including section 1808(f), and Supplement R thereof.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said application-declaration and that said application-declaration shall not be granted or become effective except pursuant to further order of the Commission:

*It is ordered,* That a hearing on said application-declaration under the applicable provisions of the act and the rules and regulations of the Commission promulgated thereunder, be held on April 15, 1946, at 10:00 a. m., e. s. t., in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held.

*It is further ordered,* That Robert P. Reeder or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

*It is further ordered,* That the Secretary of the Commission shall serve notice of the aforesaid hearing by mailing a copy of this order to the Pennsylvania Public Utility Commission and to the applicants-declarants herein by registered mail; and that notice of said hearing be given to all other persons by publication of this order in the FEDERAL REGISTER. Any person desiring to be heard in these proceedings shall file with the Secretary of this Commission on or before April 11, 1946, an appropriate request or appli-

cation to be heard as provided by Rule XVII of the Commission's rules of practice.

*It is further ordered,* That without limiting the scope of the issues presented by said application-declaration, particular attention will be directed at said hearing to the following matters and questions:

(1) Whether the proposed issue and sale of the new preferred stock of Scranton are solely for the purpose of financing the business of Scranton and have been expressly authorized by the State Commission of the State in which it is organized and doing business;

(2) Whether the terms and conditions of the sale by Scranton of securities are detrimental to the public interest or the interests of investors or consumers;

(3) Whether, in any respect, the proposed sales by American to Scranton of the securities and open account indebtedness of Railroad are detrimental to the public interest or the interests of investors and consumers and whether the considerations to be received therefor are in all respects fair and reasonable;

(4) Whether in any respect the proposed sales of securities by American to the public are detrimental to the public interest or the interests of investors and consumers and whether the terms and conditions thereof comply with all of the applicable standards of the act and of the rules and regulations promulgated thereunder;

(5) Whether the proposed limited continuance of services rendered by Service Corporation to Scranton is necessary or appropriate in the public interest or for the protection of investors and consumers;

(6) Whether the proposed intra-system sales and acquisitions of securities and assets will effect partial compliance with a previous order of the Commission entered December 26, 1945;

(7) Whether the underwriting fees and legal fees to be paid in connection with the proposed transactions are fair and reasonable.

(8) Generally, whether the proposed transactions are in all respects in the public interest and in the interests of investors or consumers, and consistent with all applicable requirements of the act and with the rules thereunder, and whether any terms and conditions should be imposed to satisfy the statutory standards.

By the Commission.
